## General Fund Overview

**General Fund** – The General Fund Overview table provides a snapshot of budgeted revenues compared to the budgeted expenditures. The General Fund budget was adopted with a balanced budget. The Adjusted Budget includes continuing appropriations for grants, capital projects, revenue carryovers, as well as encumbrances carried forward from June 30, 2013. The Actual Activity covers the 6 month activity through the end of December, 2013 and reports revenues and expenditures that are approximately at 34% and 48% respectively. This report, however, does not reflect any mid-year budget adjustments.

General Fund Overview

General Fund Categories	Adjusted Budget	Actual Activity	%
Revenues	13,610,665	4,580,417	33.7%
Expenditures	13,832,723	6,646,334	48.0%

The six revenues identified in the table above account for approximately 84% of the Adjusted Budget and 79% of the actual revenues in the General Fund. These revenues are a good indication of the status of the General Fund.

- A comparison of the adopted vs. adjusted budget for these six (6) revenues shows a net increase of \$52,619 due to the carryover portion of the 2013 projected revenue for Property Taxes (Teeter Apportionment).
- A comparison of YTD Budget vs. YTD Actual shows that 4 of these 6 revenues fell short of budget by approximately \$2.1M mainly due to the timing of receipts, particularly for Property Taxes and Sales & Use Tax backfill.
- Comparing the YTD Actual December 2013 revenues versus the YTD Actual December 2012 revenues provides a better indication of whether or not City revenues are improving. Revenues show an increase of 7.3% compared to the same period in the prior fiscal year.

- 6 Months Ended December 31, 2013

Property Taxes – The City receives approximately 17 cents on the dollar through property taxes. Typically, the major receipts of property taxes are in January, April and May. In addition, due to various State actions (i.e. VLF Swap), the City receives the “in Lieu” property taxes twice a year (January and June). Compared to 2013, property tax revenues increased by approximately 2%.

Electric Admin – The General Fund charges the Electric utility a 10% administrative charge on Electric Utility operating revenues. Throughout the year the amount transferred to the General Fund is based on the budget estimate. At year end, a calculation is done to adjust the charge based on actual Electric Utility operating revenues.

Sales & Use Taxes – This source of revenue is typically responsive to economic circumstances. Compared to the prior year, overall sales tax revenue has increased by approximately 12% for this period. Sales Tax revenues from the Cabazon Outlets, per the City agreement with the County of Riverside, exceeded year to date actual revenues last year by 6%. In the City of Banning the current sales tax rate is 8%. The City receives 1% out of the 8% collected. The State of California processes the sales tax and submits it to the City through normal monthly allocations and the Triple Flip.

Franchise Taxes – The City receives franchise payments from sources like Verizon, Time Warner, the Gas Company, and Waste Management. The refuse payments are received monthly, others are received quarterly and some just once a year. Overall, franchise revenues increased by 6% increase compared to 2013, in part due to the Waste Management yearly increase in trash pick-up rates by approximately 2%, based on the CPI index for FY13-14.

BUA lease payments – The General Fund receives monthly lease payments from the Banning Utility Authority (BUA) which is comprised of the Water (\$39,167/Month) and Wastewater (\$15,083/Month) utilities.

Transient Occupancy Tax (TOT) – This revenue source has almost tripled since fiscal year 2008-09 after a voter approval, increasing the bed tax up to 12%. Effective September 1, 2010 the rate was increased to the maximum of 12% per Ordinance 1425. The TOT rate cap increase of 12% has a sunset of November 3, 2014. As recently approved by the City Council, The TOT tax will be placed on a ballot measure on June 3, 2014 to remove the sunset and maintain the cap at 12%.

## General Fund Expenditures

At 50% of the year, actual expenditures are at approximately 48%. The General Fund Expenditures table provides a snap-shot of the expenditures by category.

General Fund Expenditures

Category	Adjusted Budget	Actual YTD	Encum.	% Spent
Employee Services	8,073,287	4,089,819	-	50.7%
Services and Supplies	4,107,673	1,731,003	237,049	42.1%
Capital	282,901	145,497	52,051	51.4%
City Hall Lease	269,951	134,849	-	50.0%
Interfund Support	1,098,911	545,166	-	49.6%
<b>Total</b>	<b>13,832,723</b>	<b>6,646,334</b>	<b>289,100</b>	<b>48.0%</b>

Employee Services account for salaries and benefits of the employees funded through the General Fund. The employees provide service throughout the City which includes: general government (i.e. city manager's office, city council, city clerk, city attorney, and personnel/human resources), financial services, public safety, planning and building, public works, and recreation. Approximately 51% of the budget has been expended in this category.

Approximately 42% of the Services and Supplies category has been expended. Within this category are city contracts for several major services such as Fire and animal control.

The majority of the Capital budget results from grants received by the Police Department. Grants are restricted in how the funds can be used (i.e. grant funds will be used for vehicles, computers, and communication equipment). Majority of the Capital expenditures are for the purchase of three Police vehicles, including installation of appurtenances. These were approved in 2012 using TASIN funds.

The City Hall Lease payments are for the refinanced debt of 2011. Payments are made twice a year.

The Interfund Support category accounts for compliance with the Maintenance of Effort (MOE) for streets projects, and the General Fund allocation of general liability/worker's compensation costs and information technology services.

The Following table 'General Fund Program Expenditure Summary' provides another perspective of the General Fund expenditures.

## Citywide Comments And Notes

The Activity Report provides the bottom line status of each fund in the City.

Special Revenue Funds are restricted in nature. This means the funds are restricted by legislation or other external sources. Any deficit variance in the budget typically indicates that there are available resources in the fund balance for projects. The revenues were received in prior years but the expenditures are budgeted in the current year.

Banning Utility Authority Funds – These funds operate similar to Enterprise funds in that the operations are funded through fees. The accrual method of accounting is applied throughout the year rather than using the modified accrual accounting method. The Utility includes Water, Wastewater and Reclaimed Water operations.

Enterprise Funds This category typically includes funds that are funded through fees. The included funds cover Airport, Transit Operations, Refuse, and Electric.

Internal Service Funds These funds provide services to other City funds. Revenues come from charging all of the other funds through an allocation process.

Successor Agency Funds (SA) – In January 2011, the Governor and legislature passed ABx1 26 that eliminated the CRA. Effective January 31st, the CRA ceased to exist. Effective February 1st, the Successor Agency was established to carry on the CRA functions. The budget and expenditures are established through the annual Successor Agency budget process and the Recognized Obligation Payment Schedule (ROPs). The ROPs cover a six month period and are approved by the Successor Agency and Oversight Board.

### *Good to know: Government Accounting and Budgeting*

Most government funds and budgets are managed using a method called “modified accrual” accounting. This method basically means that the governmental funds are managed on a cash basis throughout the year. At year end, accruals are made to ensure that revenues and expenditures are recorded in the applicable fiscal year in which the transactions occurred. This method applies to the General Fund, Special Revenue funds, Capital funds, Internal Service funds and Redevelopment funds/Successor Agency funds.

To illustrate, revenue is recorded as it is received throughout the year (cash basis). The majority of General Fund revenues come in sporadically throughout the year and most of it is received or accrued in the last 6 months of the fiscal year. Meanwhile, the expenditures are continuing each month regardless of when the revenues are received. This circumstance highlights the importance of maintaining a reserve that allows for cash flow needs during the lean months when there are no revenues.

There are funds that are considered like a business. These are called “Enterprise Funds”. The “accrual” method of accounting is used. These business type funds charge customers a fee to cover all or most of the cost of certain services that are provided. Consistent with accrual accounting, the revenues reported on the interim report reflect revenues based on what was billed the customer rather than the cash payments collected. This method applies to the Airport, Transit, Refuse, Electric, Water and Wastewater funds.
