

- **Energy Efficient Central Air Conditioning Purchase Rebate**

Program Description:

This program is designed to provide monetary incentives for the purchase of a new central air conditioner and/or heat pump unit, replacing an existing air conditioning and/or heat pump, with an ENERGY STAR rated unit. Proposed incentives, based on the energy efficiency and size of the unit (tonnage), range from \$100.00 to \$500.00 per ton.

Incentive table for the purchase of a new central A/C or Heat Pump Unit

Table-1

Split System or Packaged Unit	SEER	Rebates for Purchases After March 1, 2019
Air Conditioners or Heat Pump Units	15.0 to 15.9	\$200 per ton
	16.0 to 16.9	\$300 per ton
	17.0 to 17.9	\$400 per ton
	18.0 or greater	\$500 per ton

Program Guidelines:

- This program is available to the City of Banning commercial electric customers.
- There is a cap of \$25,000 per customer account per calendar year.
- Applicant must be a City of Banning electric customer. If the applicant is a tenant or leases space, the property owner must sign the rebate application prior to its submission.
- Rebates are available for the purchase of a brand new ENERGY STAR rated central electric air conditioner and/or electric heat pump.
- Only new high energy efficient equipment that replaces an existing system qualifies for a rebate. Systems must meet the minimum requirements shown above on Table-1
- Program participation requires systems to be installed at the service address. An on-site inspection of your qualifying system will occur within 24 months from rebate approval.
- Heat Pumps must be listed in the Energy Star website. www.energystar.gov

- A matching evaporator coil must be installed for systems that are replaced. By requiring the replacement of both the condenser and the evaporative coil, the customer and the utility receive maximum energy efficiency.
- Installation must be completed by the applicant, or a California licensed contractor with the proper specialty code. The applicant is responsible for checking with the appropriate state, county, city agencies as well as the property owner regarding local conditions, restrictions, codes, ordinances, rules and regulations prior to installation.
- Following the installation of the new high efficiency system, complete and return the application to: **City of Banning, Public Benefits Department, 176 E. Lincoln Street, Banning, CA 92220.**
- **A copy of the original, dated invoice or sales agreement must be provided, along with a copy of the yellow ENERGY GUIDE tag must be attached to the application.**
- **An original AHRI Certificate of Product Ratings including the reference number, along with a copy of the City of Banning JOB CARD must be attached to the application.**
- **The invoice must have the following information: Name, address, & phone number of store or contractor. Also, Make & Manufacturer, Tonnage (Size), Model number, SEER or EER Rating, BTU on Heat Units, and Serial Number on the new unit.**
- The application and supporting documentation must be submitted within 180 days of purchasing the product in order to qualify for a rebate.
- Rebates will be paid to the electric customer of record only. The name on the invoice must match the name on the electric customer account.
- Rebates will be issued within 6 to 8 weeks after verification of submitted paperwork.
- Program will continue provided funds are available.
