WHEREAS, California Government Code §65302(c) mandates that each city shall include a Housing Element in its General Plan. The Housing Element is required to identify and analyze existing and projected housing needs and include statements of the City’s goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. NOW THEREFORE, the City Council of the City of Banning does make the following findings and based thereon and the administrative record does ordain as follows:

SECTION 1. ENVIRONMENTAL FINDINGS.

An Initial Study/Mitigated Negative Declaration (IS/MND) and Mitigation Monitoring and Reporting Program were adopted for the 2008-2013 Banning Housing Element and Zone Change No. 13-3502 in accordance with the California Environmental Quality Act ("CEQA"), the State CEQA Guidelines §15000 through 15387, and the City of Banning Environmental Review Guidelines. City Council Resolution No. 2013-75, incorporated herein by this reference, provides environmental findings in support of that IS/MND.

When an EIR or negative declaration has been prepared for a project and changes are subsequently proposed to that project, the City is required to determine whether the environmental effects of such actions are within the scope of previous environmental documentation, and whether additional environmental analysis is required. If the agency finds that pursuant to §15162, §15164, and §15183 of the CEQA Guidelines no new effects would occur, nor would a substantial increase in the severity of previously identified significant effects occur, then no supplemental or subsequent EIR or MND is required.

Pursuant to CEQA Guidelines §15164, an Addendum to the 2008-2013 Housing Element IS/MND has been prepared to evaluate the potential environmental effects of Zone Text Amendment No. 14-97501 and Zone Change No. 14-3502. Through the analysis described in that Addendum, the City of Banning has determined that changes associated with the proposed zoning amendments are not substantial. No new significant impacts would result from these changes, nor would there be a substantial increase in the severity of previously identified environmental impacts. In addition, the changes with respect to the circumstances under which the project will be undertaken would not result in new or more severe significant environmental impacts.

The City Council finds that the Addendum together with the previous IS/MND reflect its independent judgment further finds that these documents satisfy the requirements of CEQA for Zone Text Amendment No. 14-97501 and Zone Change No. 14-3502.

SECTION 2. REQUIRED FINDINGS FOR ZONE TEXT AMENDMENT NO 14-97501 AND ZONE CHANGE NO. 14-3502:

Finding No. 1: The proposed zoning amendments are consistent with the General Plan.
Facts in Support of Finding: The proposed zoning amendments would demonstrate the availability of adequate sites for residential development commensurate with the Regional Housing Needs Assessment (RHNA) for the 2013-2021 planning period. The proposed amendments to the Zoning Ordinance and Map are not only consistent with the General Plan, they are required to ensure consistency with the Housing and Land Use Elements of the General Plan and the RHNA by establishing zoning regulations on sufficient sites to accommodate housing development at densities necessary to meet the projected needs of lower-income households in Banning.

Finding No. 2: The proposed zoning amendments would not be detrimental to the environment, or to the public interest, health, safety, convenience, or welfare of the City.

Facts in Support of Finding: Pursuant to CEQA, an Addendum to the 2008-2013 Housing Element Initial Study/Mitigated Negative Declaration (IS/MND) has been prepared for the proposed zoning amendments. The Addendum concluded that adoption of the Affordable Housing Opportunity (AHO) Overlay would not result in new significant environmental effects that were not previously analyzed. Further, any future development on AHO sites must comply with applicable development standards and environmental requirements designed to protect the health, safety and welfare of the community and its residents. Further facts and evidence in support of this finding are contained in the Addendum and the accompanying staff report, all of which are incorporated herein by this reference.

Finding No. 3: The subject property is physically suitable for the requested land use designation(s) and the anticipated development(s).

Facts in Support of Finding: Pursuant to CEQA, an Addendum to the 2008-2013 Housing Element Initial Study/Mitigated Negative Declaration (IS/MND) has been prepared for the proposed zoning amendments. The Addendum concluded that with the mitigation measures identified in the General Plan EIR and the IS/MND, adoption of the AHO Overlay would not result in new significant impacts regarding access, utilities, land use compatibility or other potential environmental effects that were not previously analyzed and disclosed in the IS/MND and General Plan EIR. Further facts and evidence in support of this finding are contained in the Addendum and the accompanying staff report, all of which are incorporated herein by this reference.

Finding No. 4: The proposed zoning amendments shall ensure development of desirable character which will be compatible with existing and proposed development in the surrounding neighborhood.
Facts in Support of Finding: Pursuant to CEQA, an Addendum to the 2008-2013 Housing Element Initial Study/Mitigated Negative Declaration (IS/MND) has been prepared for the proposed zoning amendments. The Addendum concluded that with the mitigation measures identified in the General Plan EIR and the IS/MND, adoption of the AHO Overlay would not result in new significant impacts to the surrounding properties or the community in general that were not previously analyzed and disclosed in the IS/MND and General Plan EIR. Further facts and evidence in support of this finding are contained in the Addendum and the accompanying staff report, all of which are incorporated herein by this reference. Moreover, adoption of the AHO Overlay is required by state law to ensure consistency with the Regional Housing Needs Assessment.
