- **Commercial Energy Conservation/Weatherization Rebates**

Program Description: This program provides monetary incentives for commercial electric customers to replace inefficient materials with products that will improve the energy efficiency of their facility and reduce energy use. Customers can receive rebates for a variety of energy saving efforts alone or together. They include Window and door replacement, Attic Insulation, Exterior Wall Insulation, and Lighting

Qualifying products, ratings and incentives.

Conservation Measure	Minimum Rating	Rebate
Attic Insulation	R-19 R-30 +	20 cents per sq. ft. 30 cents per sq. ft.
Exterior Wall Insulation	R-13 +	10 cents per sq. ft.
Door Replacement	Energy Star rated	\$3.00 per sq. ft.
Window Replacement	Energy Star rated	\$3.00 per sq. ft.
Lighting	Upgrades will be paid for the amount of the load reduced	\$300 kW reduced on peak demand

Program Guidelines:

- This program is available to the City of Banning commercial electric customers.
- Applicant must be a City of Banning electric customer. If the applicant is a tenant, the property owner must sign the rebate application prior to its submission.
- The incentive cap is \$15,000 per customer per calendar year.

Program Guidelines Continued:

- Lighting rebates will be paid for the amount of load reduced, and will be determined on a case-by-case basis.
- A detailed Energy Savings Calculations report detailing the type of fixtures used before and after, Watts per fixture, hours per day, days per week, kWh used per year for old and new fixtures must be attached to the application.
- Qualified products must be installed and in operation at the customer's service address.
- The level of incentive is based on the qualified product's rating. Rebate amount cannot exceed the purchase price of the new product.
- Products must meet or exceed ratings, and are subject to approval by the City of Banning.
- Energy Star rated products can be found at www.energystar.gov.
- New construction does not apply; replacement/retrofits only.
- A copy of the original, dated invoice or sales receipt must be provided, and is subject to verification.
- The receipt must note the Retailer/Contractor and/or customer name, address, phone, manufacture's name, model number type of insulation, energy factor on windows/doors and purchase price for each product.
- A copy of the Certification & Inspection report for insulation installation must be attached to the application.
- Complete and return the application and supporting documentation to: **City of Banning, Public Benefits Department, 176 E. Lincoln Street, Banning, CA 92220** or Email: PublicBenefits@banninga.gov
- The application and supporting documentation must be submitted within 180 days of purchasing and/or installation of the qualifying materials, or completion of the project, whichever is applicable, in order to qualify for a rebate.
- Itemized description of each product, including such information as:
 - Manufacturer, product make and model number(s) and other identifying information.
 - For Insulation need a copy of the Certificate from the contractor and total sq ft. installed.
 - For Windows & Doors we need the size of each item replaced on the invoice.
 - For Lighting we need a copy of the lighting plans and detailed energy savings calculations
- Rebates will be paid to the electric customer of record only. The name on the invoice must match the name on the electric customer account.
- Rebates will be issued within 4 to 6 weeks after verification of submitted paperwork.
- A facility or on-site audit will be conducted within 24 months after the application has been processed. Disparities discovered during the audit may result in a rebate reversal.
- Program will continue provided funds are available.
