I. CALL TO ORDER: Chairman Escandel

➤ Pledge of Allegiance: Commissioner Barsh

➤ Roll Call: Chairman Escandel, Commissioner Arterberry; Commissioner Barsh; Commissioner Hawkins; Commissioner Siva

II. PUBLIC COMMENTS:

At this time, the general public is invited to address the Planning Commission concerning any items that are not listed on the agenda, which are not public hearings or other items under the jurisdiction of the Planning Commission. Comments from the public of any non-agenda items will be limited to three (3) minutes in accordance with City policy.

III. CONSENT CALENDAR ITEMS:

Note: All items listed on the Consent Calendar may be enacted by a single motion without separate discussion. If a discussion or a separate vote on any item is desired by a Planning Commissioner, that item may be removed from the Consent Calendar and considered separately. All remaining items not removed from the Consent Calendar by a Planning Commissioner shall be voted on prior to discussion of the item(s) requested to be pulled.

1. Approval of the January 5, 2011 Planning Commission Minutes
IV. STAFF REPORTS / INFORMATION ITEMS

1. Oral presentation by Art Pearlman and Mark Frost on the Village at Paseo San Gorgonio project.

3. General Plan Annual Report

V. PLANNING COMMISSIONER COMMENTS

VI. COMMUNITY DEVELOPMENT DIRECTOR'S REPORT

1. City Council Actions from previous meetings on Planning-Related Items
2. AB 1234 Mandated Ethics Training (March 9th – 3:00-6:00, Council Chambers)
3. Joint PC & CC Workshop to discuss Sign Code amendment on billboards and freeway oriented signs
4. Joint PC & CC Workshop to review the Butterfield Specific Plan (an amendment to the Deutsch SP) on April 19th at 5:00 p.m. – Council Chambers

VII. TENTATIVE PROJECTS SCHEDULED FOR APRIL 6, 2011

VIII. ADJOURNMENT

The City of Banning Planning Commission is hereby adjourned to the regular Planning Commission meeting of April 6, 2011 starting at 6:30 p.m. in the City Council Chambers.

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Planning Department (951) 922-3125. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting [28 CFR 35.102-35.104 ADA title II]
City of Banning

PLANNING COMMISSION MINUTES

January 5, 2011

A regular meeting of the City of Banning Planning Commission was held on Wednesday, January 5, 2011 at 6:30 p.m., in the Council Chambers, City Hall, 99 East Ramsey Street, Banning, CA, 92220.

Commissioners Present: 
Vice-Chairman Arterberry
Commissioner Barsh
Commissioner Hawkins
Commissioner Siva

Commissioners Excused:
Chairman Escandel

Staff Present:
Community Development Director Abu Bakar
Assistant City Attorney Lee
Assistant Planner Guillot
Recording Secretary Sorenson

I. CALL TO ORDER

II. PUBLIC COMMENT

No one came forward.

III. CONSENT CALENDAR

1. Review of Minutes (December 1, 2010)

ACTION (HAWKINS / SIVA): A motion was moved, seconded and carried that item 1 be approved as presented.

(Motion carried 3 – 1) (Commissioner Hawkins abstained & Chairman Escandel was excused)
IV. PUBLIC HEARINGS

1. Initial Study/Negative Declaration and Zone Text Amendment No. 10-97506; Amendment to the Banning Municipal Code to adopt development standards and guidelines to allow the installation of Small Wind Turbines as a conditionally permitted use in the Open Space (OS), Public Facilities-Airport (PF-A), Public Facilities-Schools (PF-S), Public Facilities-Hospitals (PF-H), Ranch Agriculture (R/A), Rural Residential (RR), Very Low Density Residential (VLDR), Professional Office (PO), Industrial (I), Airport Industrial (AI), Business Park (BP), and Industrial-Mineral Resources (IMR) zoning districts; and, the installation of small wind turbines permitted by right in Public Facilities- Government (PF-G), and Public Facilities-Fire (PF-F).

Assistant Planner Guillot presented the staff report and stated that this item was considered on November 3, 2010 and the Commissioners had comments that we have addressed. Presently our Zoning Ordinance does not permit the installation of any small wind turbines. The purpose of this Zoning Ordinance amendment is to allow the installation of small wind turbines that have a rated capacity of not more than 50kw and are intended primarily to reduce on-site consumption of utility power. Our amendment is modeled after the State of California model ordinance. The installation of large wind turbines and wind farms is outside the scope of this proposal.

Mr. Guillot then addressed the Commissioners questions / comments from the last meeting: 1) Request to research other technologies – there is the blade type turbine, the wheel, the vertical axis type and the energy ball – the energy ball is the test turbine that has been installed at the City Yards. As technologies develop and it becomes necessary to change our ordinance, he reminded the Commissioners that this ordinance is not set in stone. 2) Question was why are small wind turbines permitted by right in government facilities – the regulations do not apply to government agencies. That is true for most regulations that are local. We may be infringing on State or Federal rights by imposing our local regulations. An example of this is the construction of school facilities. The permits do not go through the City’s Building and Safety Department, they are not reviewed by Planning, they are strictly handled by the State Architect’s office. 3) Question regarding the cost – State of California’s energy web site related that for a small system it is about $5,000 per kw. An example of a 10kw system would cost around $50,000. 4) Request to address revisions on the regulations – we added the Rural Residential zone and the Very Low Density Residential zone. The VLDR zone actually allows parcels of one-half acre. However, the requirement for one acre is still there for the installation of a wind turbine.

Mr. Guillot showed slides from Cheyenne, Wyoming. They suggest considering four items for a good installation: “Siting of a wind generator is extremely important to the
performance of the machine. It is the difference between a machine that gives you lots of energy and a garden sculpture. The ideal location for a wind turbine is twenty feet above any surrounding object within a 250 foot radius. This generally means your property should be at least one acre in size.” That is why in our regulations and in the State’s model ordinance, there is the requirement for one acre sized parcels. There is another illustration which discusses the “flicker” impact. This is related to a wind turbine turning and the sun being low on the horizon. You get that flash effect which can be very annoying. For that purpose, if you have an installation 80 feet in the air, you need some distance in order for the flicker affect to impose itself on a nearby property.

Wind turbines, with new technology are relatively quiet, but they do add another noise generator and in a residential area this would be significant, because most of us have the expectation that our home areas would be quiet. By means of distance, sound lessens, again showing the necessity for these objects to be on larger parcels to reduce the flicker effect, sound and visual impacts. We don’t want to impose wind turbines visually on a nearby property. They could be eighty feet tall and could cast shadows on someone’s home and they are machines and are prone to failure. So if there was a failure or some other system problem, that could impact a neighbor. All of these issues and other considerations such as set backs and zoning are the reasons for the one acre requirement. It is really intended that these types of turbine installations would be in rural areas.

Commissioner Siva mentioned looking at alternative energy sources and appreciated seeing the slides from Cheyenne, Wyoming. However, he felt these set backs and requirements were for a standard wind turbine – 60-80 feet above the ground. He said he felt the power ball (energy ball) that is erected at the City Yard “is a good example of something that doesn’t need to be subject to those types of requirements. That is the type of technology that we were looking at. Going with the zoning the way it is now, even though we will be allowing residents to have wind generated energy, we’ve also eliminated by your recommendations, everyone else in the City.”

Mr. Guillot responded that it was his understanding that our Electric Department was somewhat disappointed in the performance of the energy ball. One of the web sites he visited, referring to the requirement to locate everything 20 feet above anything within 200 feet, stated that this is very important because even when the wind is blowing, if there is turbulence, those energy balls are not efficient and they are not producing electricity. They are producing electricity only about one-third of the time, even in an area like the Pass. He stated he was surprised they were not more efficient, but that is the reason why they have to be so high and every piece of research that he looked at showed that they need to be very high above the slip stream. When they are in an urban environment where there are many roof-tops, the turbulence significantly impacts the efficiency and at that point, it may not be advised. So that is why all of this is modeled after a more rural and not urban environment.

Commissioner Siva stated that he appreciated the information and that the only information he had was from the company that is trying the sell the energy balls. “In a
couple of instances they had shown that it does take into consideration the turbulence and the example that was given was that if they could even get a constant for a period of time of four and a half miles an hour, then they can generate 50 kilowatts. I do not know if that is actually possible, but my point is this, if we’re looking at the State’s recommendation at $5,000 per kilowatt, I’m not sure that cost………if something like the power ball or the new technologies could work………perhaps then that is a high estimate for what it would actually cost. The example that was shown to me was the Florida hurricane that knocked out electricity for weeks………if they had this power ball they would have been able to generate electricity and they were specifically targeting it to air conditioning, direct current air conditioner, because at that time it was high heat, people died in Florida because of that and they thought if they had air conditioning it would have helped them. But, in our ordinance, what we do is create an assumption that the cost is going to be $50,000 or more, depending on what you’re going to try to put up. Consequently our fees are based, maybe on that kind of cost………I think it’s like $5,000 for the conditional use permit plus we’ve already arrived at a negative declaration, but the consumer is still going have to pay to have that actually apply to his property. We are looking at a cost that in our ordinance may be exorbitant for the residents in this city.”

Mr. Guillot responded that he was “surprised to discover through his research, that coal power is still the cheapest form of power. Wind and solar really don’t compare, but the cost is coming down on these technologies. We’re making it available, because right now if someone said, I want to install this, there would be no ability to do it. We are making it available through our Code. I can only go on the date available in the report………if an installation costs $50,000 and you expect a pay back in twenty years………you’re talking about over $2,000 of energy reimbursement per year. Now, how much energy does a single family dwelling use………remember, the installations as they are allowed under most electric utilities are not for the purpose of generating power or of producing profit by means of producing power………..it’s just a reimbursement of your electric bill. So using that model and using the data from that report, realize that you would have to have $2,000 a year just in reimbursement………..so say you had a $200 per month electric bill…………there are certain fixed charges, so you would only be able to reimburse the actual kilowatt charges…………say you could do that $200 per month…………we’re getting close to breaking even, but you would have to be a big user of electricity to even consider this type of application at this point…………now, that’s not to say that things won’t change and that’s why I wanted to make sure that the Planning Commission realizes that if things change substantially we will bring back different regulations…………but we’re just addressing the things we know now, the technology and the science we have now and the cost of power we have now…………we’ll address that as time goes on, but right now we have the ability to reimburse very large users of power…………we want to make it available to those large users…………and that’s not that we’re setting aside single families, technology may change…………but as I understand it, we’re not quite to the single family subdivision lot as far as these types of technologies today.”

Commissioner Barsh stated that he was concerned because “in looking on the internet I can tell that we have ways of doing things that are not already ingrained in the society.
What has happened here is, in my view, we want to conserve electricity at every level if possible and I would like to see whether it's possible even now........for example, the power ball, I was reading on the internet, requires two miles per hour wind to operate........so if we have that small of a thing that will generate electricity and if it's cost effective, I think all of the things that are being thrown around.....did you call and get an estimate from the local guy that developed the power ball and ask what it would cost for him to install the thing at a home?"

Mr. Guillot responded that he did not, he relied on the technical studies prepared by the State for that cost. If the Planning Commission would like a report on what the Electric Department is doing, we could certainly bring that forward. One of the reasons they're testing that energy ball is because sometimes the way things work locally are not the way that they propose it will work in the design. So we want to use it here in Banning the way the wind blows here in Banning and see how it works. I believe the Electric Department will bring some information forward on that at a later time.

Commissioner Barsh stated that what he wanted to understand was "the location of where they placed that power ball and that is a consideration. There are places in the Pass that are more windy than other places. We are not taking that into account........so because you've got it in one place, but there could be a place where there is prevailing wind as we see out in the desert.......a part of that system, which would take care of everything.......but we're throwing out one of the things.......one of the things that the City has is they want to promote conservation of energy.......and the biggest thing that can conserve energy, that we have, is population........and what they can do.......but if we preclude getting something that can produce electricity at a home level, we're knocking out most of the people here and saying to them that you cannot conserve energy no matter what........because we have some things out here that are costing a lot.......if the recommendation were to look at the guaranteed output of something by a reputable company and we tried that out, I can see that we might be able to do something.......but if we're just going to say, I put it in this spot........ok, is that the windy spot?"

Mr. Guillot responded that to kind of answer his question "the City's Planning Department would not be involved in designing the site........we would just be checking to see that it meets the City's General Plan land use requirements........so what we're really talking about is land use........the person that proposes the placement of one of these would have to do their own engineering study in order to find out if the wind is adequate, if the location is adequate.......are they in a part of the City that would be profitable.............like you mentioned, there's different parts.......so that would be on the person proposing the project........the only thing that we are regulating through this ordinance is land use."

Commissioner Barsh responded "but then you're making your decision based upon a recommendation from somebody who doesn't have that ability to determine whether the land use will do it.........because it's one spot they're putting it in........to me, that's ludicrous, because you cannot tell, you say I'll put it here........now it's going to be this
way for every place in this City........you’re saying well they say this because they’re doing the thing there...........where do they get their information?........do they know how it would work? Have they made a study of the winds in this community?"

Director Abu Bakar stated that she appreciated the Commissioners comments and gave a little background.....she said when the energy ball was installed at the City Yards, we had two or three residents inquire about placing similar energy balls on their property.....she said she appreciated the Commissioners comments about energy conservation and that is part of the City’s philosophy also........our thought is that we would like to do this and it is consistent with the City’s goal, so let’s start small and see how it goes.....because if we try to cover everything........in the entire City..........it’s too much......because like Brian indicated, we don’t even know how good the energy ball is............because it is not producing the amount of energy that we are looking for......Vice-Chairman Arterberry asked if that was because the ball was too low and needed to be raised........Director Abu Bakar responded, there are so many factors......I was hoping that I would have someone from Electric Department here, I’m not in that field, but knowing just generally, there are a variety of factors........location, height, the way the wind blows........but we thought let’s start small and see how many people wanted to do this.........it is a lot easier to start small than to be big and then find out there’s a problem........maybe we’ll take a baby step and if we have a lot more requests, we’ll come back before the Commission and Council.....but we want to start small and see how many requests we get.

Commissioner Siva commented that he thought “this was fine........the fact that you put it up in one place and it’s just general.......you haven’t really done any study...........I think is actually a good thing in a way........because you find out just randomly whether it’s going to produce or not........it would be nice to have somebody from the Yard here or somebody who’s actually done it..........to find out how they decided to put it up......I’d like to know what the ratio is that they’re looking at with energy generated versus the amount of energy used by the Yards as opposed to energy generated at a residential unit itself..............that would be something good to know........so that we would know if it would generate enough electricity to save somebody $20, $30, or $40 dollars on their bill, in a residence...........as opposed to saving only $2 or $3 dollars at the Yards, we’d get an idea of what we’re looking at........the other thing is this.............and it’s a very good point that you brought up........it’s that we want to start small...............under this ordinance, supposing that somebody comes to the City and they say, we’re three residents, we see your power ball up there, we want to put one up ourselves...............and it’s going to cost $5,000 just to get a permit to put it up.........so while I appreciate the fact that we want people to have the ability to put up wind generators........I just really think there has to be some way of separating what the norm is right now, what you just recommended to us, that we don’t know what’s going to happen in the future...........but we do know what can happen right now......and we need to be able to separate out the difference between the people that are the residents of the City that are precluded from doing this or, if we don’t preclude them in certain circumstances, to make some adjustment for the cost that they’re going have to.......in order just to try it........to start small........I think that’s

Planning Commission Meeting
January 5, 2011
where the biggest problem is…just for an example, Joe Smith is going to have to pay the same fee as a large user, like Logan Airport……..I think that the Planning Commission is really about conservation of energy, about green energy……..some of the proposals that we’ve adopted for new businesses going up, we invited them to put solar energy and at least show that they’re doing something green……..this is where I have a problem with this……..we’re putting something in writing for the City that precludes all the residences until something newer comes along and we decide that we’ll come back again……..but in order to allow those residents to actually explore that possibility we’ve set fees based on averages that are not applicable or comparable to what we’re looking at here in alternative sources……..so in that respect, I just need you to suggest something that we can do.

Director Abu Bakar responded that what she was hearing was that the Commissioners needed more information……..testing at City-Yards, you want to know all the details like how tall it is, how much wattage we’re getting……..Vice-Chairman Arterberry said he wanted to know the cost of a permit……..Director Abu Bakar said the other thing is that maybe we should look at other communities that have done something like this and see what their fees are……..and come back with the fees also……..Commissioner Siva said the problem that he has with the report is that it takes a standardized understanding of what we call wind generation, right now……..and we’re basing our numbers on what the standard is presently and the standard right now is an 80 foot pole in your yard……..and when I thought about this from the last meeting when we brought this up, the problem that I had was that yes, we have to exclude everybody up here……..because we don’t want somebody’s pole falling on somebody’s house……..we don’t want the “flicker effect” affecting fourteen houses around here……..there are a lot of reasons for limiting somebody putting up a standard wind generation unit in a high residential district……..but that’s one of the reasons why we asked the question to come back on this……..and so I think we need to take this report away from that standardization and think at least about how we can accommodate the residents of the City.

Assistant City Attorney Lee stated that she wanted to add a few comments that they might want to consider. First is the safety issue that Commissioner Siva brought up……..let’s say a huge gust of wind occurs and the turbine isn’t safely mounted on the ground and it falls over……..obviously, we don’t want other properties to be harmed and that is why there is a minimum set back requirement in the ordinance……..for example, the City Yard’s energy ball is approximately 50 feet in height and so therefore, if this were to be put in someone’s back yard it would have to be at least 50 feet away from every side yard set back from their property line……..so if they have a quarter acre lot (10,000 square feet) it would have to be right in the middle of the property, which I would assume a house would be there and so therefore, it would be precluded in general……..if it were to be located any closer to the property line, if it fell, it would affect all the neighbors……..so we have a safety issue which the ordinance addresses……..and this would tie into the minimum lot acreage……..so a 40,000 square foot lot would be adequate to protect against these safety measures……..secondly, there would be
the aesthetics... obviously, not everyone would be able to afford the turbine, considering that they may cost upwards of $50,000... but assuming residents would be able to do such a thing, the aesthetics issue would be apparent... we don’t like cell towers popping up everywhere... the consideration would be how much of these wind turbines would be acceptable... if we do allow it in more zones and they become an aesthetic issue, can we then later on restrict those uses in these zones... that would be much more difficult to do than to expand the uses in different zones later on... we all know that it’s easy to expand the uses, but to restrict them later on would be very difficult considering they would become legal non-conforming... we wouldn’t be able to do an amortization if they cost so much and they wouldn’t be able to get their money back as part of their investment... so that’s another consideration.

Commissioner Siva said he appreciated those comments and those were his concerns also... the safety issue, noise... I think it’s very important to find out what the ratio is between electric power generated versus electrical power used at the Yards... secondly, I’d like to know if there is a difference between a 50 foot tower with the power ball on it versus a five foot tower on the roof at the Yards with the power ball on it... in other words, if it generates the same amount of power, little that it is at five feet off of the roof... then you’ve pretty much opened the door to put this on any residence in the City... because if you’re only generating that little amount of power and the residence is using much less power than the City Yards is then it might be profitable for the consumer, the residents of the City to use it... and providing that we get that kind of information, then we need to revisit or maybe visit now, what we’re going to do to the residents of Banning if it is feasible... I can understand paying a $5,000 fee if you’re going to invest $50,000 - $80,000 in something... but according to the information on this power ball (he mentioned that he had provided a disk with information for the Commissioners) but we’re looking at an $8,000 - $14,000 cost and I would hate to add a $5,000 fee to put something like that on the roof... if it becomes feasible... those are the kind of issues that I’d like to see... if we go just with what you’re saying, about a standard wind generating unit, then yes, I agree with everything you are saying... I don’t think that it’s feasible or possible, but I think it’s extremely restrictive never the less... we’re allowing some people to benefit by it, but it’s extremely restrictive to the rest of the residents... one, if you’re in a high density area... two, if you have any plans to take land that you have already, one acre or more and divide it into lots... that eliminates your ability to have generation there... and three, the fees that we’re charging make it not cost effective for the residents should it become feasible... can we address that and then give it to the Council so they can recognize what the possibilities can be.

Director Abu Bakar stated that what she was hearing was that the Commissioners needed more information... one thing was that we need to get staff from the Electric utility to come here and give information with regards to the tests that we have... second thing she’s hearing is about the fees... our fees are high... one of the items on the agenda for the directors is to look at all City fees... we have been thinking a lot about the conditional use permit and how it relates to a use going into a new building.
compared to a use going into an existing building.............also planners look at the aesthetics of the community........take for example the electrical utility lines that we have........one of the things to do to improve the aesthetics is to underground the power lines........so when I look at mechanical equipment, similar to a satellite dish and energy ball, to me it's aesthetics and those are valuable quality of life things for planners and the people in the community........so I want to make sure that ........what is the Commission's take on these items.

Vice-Chairman Arterberry responded that he thought the aesthetics are all right and feasible........his concern was the set backs, size of the property and the safety of the equipment........if your lot is 6,000 square feet and you and your neighbors all want to get together and you all have the same lot size........you can't get the maximum benefit of this wind energy........you'll have to go 80 feet in the air and the aesthetics of that would be terrible........so I agree with the Very Low Density Residential ........the purpose for having this wind energy on your property........if you have a three bedroom, two bath house, it's possible that you could have an electric bill of $200 and it would not be cost effective for you to put a turbine on your property........so I agree with everything except for the fees........I think the fees should be adjusted according to your project.

Commissioner Barsh stated that it appears we are all looking at this like the only thing that is available is at least 50 - 60 feet........what if we find that a very small distance off the top of a roof........we're talking about aesthetics........what about sun power........what about the aesthetics of having a whole roof covered with solar panels........the key is whether we need energy, whether we want to have to use energy that is not replaceable........and it's a very serious matter........so when we talk about it........we're talking about these big towers........I don't believe that everything is going to be big towers and I believe we are on the road right now to getting something that is lower than you would ever expect........I don't know how fast the wind blows here but two miles an hour doesn't seem to me to be a big wind........two miles an hour.......and yet this power ball can create energy with two miles an hour.......where it's placement is, I don't know.........I'm not a technical person in that area........we contact people who know that or do we just say, well this is what these people over here said, and they have no responsibility to our community........now here we have a member of our community who has actually made that invention........so to continue to harp on these 60 - 80 foot things and saying the poles are going to fall........when we don't know and haven't looked at........and the fees are pretty expensive.

Mr. Guillot pointed out that in reviewing our regulations, most of these regulations are "maximums"........so if someone wanted to have a lower facility, that's all permitted........even roof-mounted is permitted, because all of that comes to the Planning Commission........remember, the 80 foot height is a max on a one acre........you could have a 20 foot one, if you wanted to.
Commissioner Barsh countered that if you have a 20 foot one.........your making all of your fees and other things based upon a big thing there that has to be pretty well developed because you know winds are pretty hard........what if there is a way and that wind........you see, the wind blowing through a device like that is not the same as a wind blowing against some other device that has more surface area........it's the surface area that we're worried about, because the surface area, if it's bigger can cause more trouble.......and to get it, if you need 15 – 20 mile wind, there's a little difference to that..........so the question is whether you have looked into the factors of how much wind it takes and how high is the minimum that it could ever go.......because if you don't know that and you are always talking about the maximum, like 80 feet.........it's minimum for some people, but for me it's the maximum height that you need.

Commissioner Hawkins stated that he felt the door has just opened on this technology.......and the people that are out there developing these things realize that the money is going to be in the residential area.......these spotted ones here and there........that's limited.......but I think things are going to be developing so fast in the very near future, it's going to be coming before this commission a number of times this year.......I don't really have a problem with the way you have written this ordinance.......because I know it's going to change.......and I'm almost certain that the fees will change also..........if you get enough people interested in doing something in a residential area........I suspect that this whole technology is going to change so rapidly that we're going to be having to change our codes........probably in a year or so, we're going to be amazed at what's out there.

Commissioner Siva inquired if we knew how many wind turbines there would be on the south side of town if half the people who had the appropriate sized lots put up a tower 60 – 80 feet high........we possibly could have a little forest.

Mr. Guillot responded that could be true..............but it seems to be in other communities that the cost is not quite there yet..............remember we're talking about straight cost of energy and I really wish someone from the Electric Department was here, because when you get down to wind generation.......if you just look at a simple chart ........look at the State web site, they'll just tell you frankly.......because although the wind is free, the cost of putting that technology there is expensive........and it has to be maintained........with all of the cost of installation and maintenance, wind power is very expensive relatively speaking........when you talk of coal or hydro or gas generated.......the other conventional ways that we are familiar with..........but because the technology is improving and we see installations like that and the one at the Yards........and we'll see pretty soon if it's efficient enough to warrant the cost........we wanted to start and that was really the purpose of this........remember I'm a planner (Vice-Chairman Arterberry stated none of us are professional wind people here).........yes, and I trying to address things strictly from land use........but it's starting to get to the point where some users will install these, I don't think everyone will, but right now our code would say no.........they can't do it.......and as you know, you meet once a month and then we would have to go to the City Council, so we're talking a two to three month cycle for any changes......so
we thought we would get this in as soon as we could and then we would have the skeleton and we can flesh it out as times goes on.......but we’re strictly looking at land use.

Commissioner Siva asked about going back to aesthetics, if we had any idea of the size of the power ball at the City Yards........I haven’t seen it........I didn’t know it was there, so I’m going to go down and look at it..........but I know that the residential unit is one square meter.......so we’re looking at a unit that sits on the roof.......and then it’s a little longer because it has a vane that causes it to follow the wind........that kind of aesthetic look I don’t think is going to be a problem.......but I think you have brought up a good point that you have created a skeleton, but my concern is that the skeleton really is the problem........because it excludes all the residents basically in Banning..........that are up here with us........that’s the bottom line and something we should take into consideration.

Commissioner Hawkins stated that he did not think we would be getting a lot of applications until they can be shown that the price that they’re going to have to pay for a unit is going to be such that it makes sense over a period of time to recover the cost of it......and I think the cost of the permit to get to do this was not fashioned for residents, homeowners........that’s for more of a larger application........and I truly believe that this technology is going to advance so fast because they know the money is with the residents........that’s mass........they can sell thousands and thousands........but they have to bring the costs down to a point that it makes sense and I think they will.

Vice-Chairman Arterberry opened the public hearing. No one came forward to speak and he then closed the public hearing.

ACTION (HAWKINS / ARTERBERRY): A motion was moved, seconded and carried that the Planning Commission:

1. Recommend that the City Council adopt a Negative Declaration in compliance with the California Environmental Quality Act Section 15000 et seq.; and,

2. Adopt Planning Commission Resolution No. 2010-10 recommending approval of Ordinance No. 1432 to City Council amending the “Zoning Ordinance” for Small Wind Turbines.

(Motion failed 2 – 2) (Chairman Escandel was excused)

ACTION (SIVA / BARSH): A motion was moved, seconded and carried that the Planning Commission table the matter at this time.

(Motion carried 4 – 0) (Chairman Escandel was excused)
The Planning Commission directed staff to “get us the information from what we have already discussed and to find the gentleman who made the energy ball and maybe we could have him here at the next meeting or staff could at least talk to him and find what his recommendations would be and to also look at some of the other technology with regard to how feasible it is.”

V. TENTATIVE PROJECTS SCHEDULED FOR FEBRUARY 2, 2011

No items scheduled at this time.

VI. PLANNING COMMISSIONER COMMENTS

No comments at this time.

VII. COMMUNITY DEVELOPMENT DIRECTOR’S REPORT

East Ramsey Street Monumentation & Beautification Presentation: Public Works Director Duane Burk and landscape architect, Todd Bagley discussed plans for East Ramsey Street, tree species and water-wise trees and plants. They also displayed various “Welcome to Banning” signs. The Commissioners all liked the idea of improving the “East Gate”.

VIII. ADJOURNMENT

There being no further business to come before the Planning Commission, the meeting was adjourned at 7:55 p.m. to the Planning Commission meeting on February 2, 2011 at 6:30 p.m.

Respectfully submitted,

Gini Sorenson
Recording Secretary
CITY OF BANNING
PLANNING COMMISSION REPORT

DATE: March 2, 2011

TO: Planning Commission

FROM: Zai Abu Bakar, Community Development Director

SUBJECT: GENERAL PLAN ANNUAL REPORT

STAFF RECOMMENDATION
That the Planning Commission:

1. Review and comment on the report; and,
2. Recommend to the City Council the approval of the report by adopting Resolution No. 2011-01 and direct staff to file it with the State Office of Planning and Research and State Department of Housing and Community Development.

BACKGROUND
Overview
The California state law requires that each city and county to adopt a general plan to guide development in their city and land outside its boundaries that has relation to its city planning (Govt. Code §65300). The California Supreme Court has called the general plan the “constitution for future development.” The general plan expresses the community's development goals and embodies public policy relative to the distribution of future land uses, both public and private. The purpose of the General Plan is to guide development and to improve the quality of life of the City's residents as land development continues to occur.

Required Elements in the General Plan
State law requires that the General Plan include seven (7) mandated elements: land use, housing, traffic circulation, safety, parks and recreation, conservation, and noise. Each of these elements must have goals, policies, and objectives that would contribute to the overall quality of life for Banning residents. Non-mandated elements can be included in the General Plan; however, once the element is adopted, the goals, policies, and objectives in the non-mandated element have equal status. For example, the land use policies are not any superior to the open space element or economic development element. Each of the element goals, policies, and objectives shall be internally consistent in texts and graphics in that they cannot conflict with each other.
Amendment to the General Plan
The State law allows cities to update or amend their General Plan as needed. A comprehensive update to the General Plan usually occurs within the 10-15 year time frame. An amendment can occur at any time; however, the number of amendments is limited to four (4) amendments per calendar year. If two or more elements are considered or approved at one meeting, they are considered one General Plan amendment. The City should be strategic in processing the amendments to ensure that it has not exhausted all of the amendments in case some important/unique policy issues come up and require a General Plan amendment. Once the number of amendments are exhausted per year, the City will have to wait until the following calendar year to do an amendment.

Requirement for Annual Progress Report
Government Code §65400 mandates that cities and counties in California submit an annual report on the status of the General Plan and progress in its implementation, including the progress in implementing the housing element (Exhibit “A”), to their decision makers (City Council or board of supervisors), the Governor’s Office of Planning and Research (OPR) and the Housing and Community Development (HCD) by April 1st of each year. The purpose of the General Plan annual report is to provide enough information to identify the necessary “course adjustments” or modifications to the General Plan and means to improve local implementation.

The State uses the information submitted by the City to identify statewide trends in the land use decision making process and how local planning and development activities relate to statewide planning goals and policies.

ANALYSIS
The City Council adopted the current General Plan on January 31, 2006. The General Plan has 21 elements (seven [7] of which are mandated by the State). It contains 263 implementation action programs.

Progress
It has been five (5) years since the adoption of the General Plan in 2006. The City continues to take proactive steps in implementing the goals, policies and action programs of the General Plan. The City has implemented, completed and/or has an active/ongoing status of 222 action programs (85%) out of 263 action programs. Only 41 action programs (15%) have not been completed and/or initiated. In summary, the City has done a good job of implementing the General Plan. The primary reasons some of the action programs have not been completed/initiated relates to budget deficits, reduction in staff, and work program priority for each of the City departments.

The General Plan Progress Report is organized alphabetically by element (Exhibit “B”). Each section contains the adopted goals and policies including a summary table that reflects the action program, responsible agency, adopted schedule and implementation status. For easy reference, the action programs that have been completed and/or are active and ongoing are highlighted in bold type, while the programs that have not been completed/initiated are highlighted in Italic.
Highlights of Development Activities in 2010

Since 2006, the State and the nation have been facing a major economic recession. All the cities and states are impacted by this recession. The City of Banning experienced a significant reduction in building construction activities.

Despite the economy, the City continues to make progress in land development and community revitalization. This is due to the contribution that was made by the Banning Community Redevelopment Agency (CRA), the Banning Unified School District, the San Gorgonio Memorial Hospital, and the San Gorgonio Pass Habitat for Humanity. The CRA funded various infrastructure improvements in the redevelopment project area. The Agency funded the replacement of the Downtown water lines that are undersized and nearly 100 years old. These water lines require ongoing repair and maintenance. The new water lines will provide adequate water pressure for domestic use and fire suppression for existing and future development in the Downtown area. The CRA also funded the extension of Apex Avenue and the turn pockets for Beaver Clinic and San Gorgonio Memorial Hospital on Ramsey Street. The Apex Avenue extension provides the second point of access to the neighborhoods along that street. In addition, the CRA also funded the undergrounding of the storm drain improvements and installation of sidewalk, curb, and gutter in and around the State Courthouse. The Courthouse is anticipated to break ground in July 2011.

The CRA also funded two key on-going housing programs for low income residents using the 20% set-aside money received from the tax increment generated within the Redevelopment Project Area. These programs are the first time home buyers program, which provides a maximum of $20,000.00 assistance toward the purchase of a home by a low income resident. The exterior rehabilitation program provides up to $10,000.00 in grants to a low income resident who needs assistance in re-roofing, painting, window replacement, air conditioning and heating unit replacement. Within the last calendar year, the CRA assisted one resident with down payment assistance and 11 exterior rehabilitations. The California Community Redevelopment Law (CCRL) requires that the 20% set aside money be used to fund low income housing in all areas of the City. The CRA also funded various façade improvements in the Downtown area, which help improved the aesthetic of the area.

The Banning Unified School District and the San Gorgonio Memorial Hospital also contributed to the progress in building activities. The Habitat for Humanity has completed the construction of two homes in the community. Additionally, within the last calendar year, Habitat purchased one home for rehabilitation. Exhibit “C” provides a detail list of development activities in the City.

POLICY ISSUES

As part of implementing the current General Plan, issues have surfaced in traffic circulation, land use, and housing elements as follows:

Traffic Circulation

- Level of Service for Roadways

The General Plan requires Level of Service C (as opposed to D) for traffic flow in most areas of the City. Most cities in Southern California require Level of Service D for their traffic flow, including the City of Beaumont. Highland Springs Avenue is located in two cities. The easterly half of the
street is in the City of Banning and has a LOS C. The westerly half is in the City of Beaumont and has a LOS D. This presents a challenge for any traffic engineer to try to evaluate and mitigate development projects’ traffic impact. A wider right-of-way is required when a City requires LOS C as opposed to D. Future development in Banning will be required to build wider streets or provide traffic improvements such as intersection widening, installation of traffic signals and mitigate more impacts compared to Beaumont. This makes Banning unattractive for development because it will cost more to widen a roadway or provide other traffic improvements, which put the City of Banning at an economic disadvantage compared to Beaumont.

A local roadway, for example San Gorgonio Avenue, is required to have a 60 foot right-of-way, with a 40-foot street section from curb-to-curb. This represents two travel lanes on each side, and a parkway on one side. The Life Point Church and Fellowship was required to dedicate additional right-of-way when they expanded their property to construct two modular buildings so that the Church has more storage. The Church was not aware of the dedication requirement resulting from the General Plan requirement. The Church had to dedicate a 15-foot section of their property along San Gorgonio Avenue for a future right-of-way expansion based on today’s standard in the General Plan. There are other similar cases for residential properties where dedications are required to provide for a right-of-way to accommodate more traffic flow.

The General Plan currently acknowledges that the LOS C, although desirable, is generally unattainable in most of southern California, especially during peak hours. Additionally, the General Plan states that Ramsey Street will not be able to accommodate LOS C. “In order to maintain LOS C on Ramsey Street, additional travel lanes would be required at its intersection with Highland Springs, Sunset, 8th Street and Hargrave. Some of these lanes would need to be on Ramsey, some on the cross street…. LOS D does not represent a significant degradation in traffic flow. When balancing the need for an efficient traffic system and the widening of streets to accommodate peak hour traffic, it appears that a lowering of the City’s requirement for Ramsey Street from LOS C to D will not result in a significant negative effect.”

If the LOS is maintain at higher level, it would result in the following:

- Wider right-of-way is growth inducing because it allows more traffic to be accommodated, which impacts air quality and water run-off. Wider streets cost more for construction and long-term maintenance once they are built.

- Where the City does not own the right-of-way to widen an existing street, it must acquire property either through a friendly acquisition or a take. Staff believes that this is not the intention when the General Plan was adopted.

- As part of development, developers will have to prepare and have approved either a Mitigated Negative Declaration or Environmental Impact Report just to mitigate the traffic impacts alone (and not other impacts) to comply with the California Environmental Quality Act (CEQA). These documents are time consuming and costly to prepare. An Environmental Impact Report takes approximately one year to prepare and could cost around $100,000.00 or more depending upon the complexity of the project.

All of the above makes Banning less attractive for development and investment.
Highland Home Road

Highland Home Road interchange was included in the General Plan to provide a north-south traffic congestion relief at other on- and off-ramps in Banning based on Caltrans one mile spacing standards between interchanges. Caltrans does not have this interchange in the State Transportation Improvement Plan, which means that they will not support the construction of the interchange. Currently, there is no funding for the project. The feasibility study that was completed in 2008 concluded that the construction of the interchange is not feasible due to design issues and lack of right-of-way. Also, the Public Works Department had a $60,000 feasibility study completed for this interchange and it concluded that the Highland Home Road interchange would not geometrically fit. To continue to evaluate traffic impacts to an interchange that is highly unlikely to be built is to understate the real traffic impacts to existing intersections and to further delay the improvements that are necessary to accommodate traffic.

In both of these cases, Staff believes that this is not the intention when the General Plan was adopted in 2006. Staff anticipates bringing a General Plan Amendment to the Planning Commission and City Council to address policy issues on traffic.

**Land Use & Non-Conformity**

When the current General Plan was adopted, land uses in certain areas were changed, which made the existing uses non-conforming. The following are the areas where land uses were made non-conforming resulting from the adoption of the current General Plan.

- When the decision was made to elongate the Downtown Commercial zone to be consistent with the current General Plan, many single-family homes (about 100) were made non-conforming. The Zoning Code was amended to allow **existing** single-family homes to be permitted, therefore, people could obtain financing to repair, sell and get insurance. However, we still have a very large Downtown Commercial Zone District. It goes as far north as Nicolet in one place and as far west as 8th Street and as far east as almost to Hargrave. Also, in the previous Zoning Code, Ramsey Street from Drury to Hathaway was Commercial Manufacturing. With the new Code, all of those manufacturing uses are now non-conforming. This presents a challenge to permit commercial uses in the buildings that were not made for commercial establishments.

- On Lincoln Street, from close to the corner of Sunset to almost 12th Street, the General Plan land use and the corresponding zoning district changed the zone from Manufacturing to General Commercial, which created non-conformities with the manufacturing facilities that are there. The former Pacific Window property, which is now occupied by Lawrence Equipment is one example.

- Another area that was a drastic change was the north side of Williams from Hargrave to Hathaway. That whole area was Medium Density Residential and High Density Residential. Properties were purchased with plans for apartments, condos, etc in mind. The Code was changed to Low Density Residential. Nothing has been built as the lots are too strangely
configured to be split for single-family homes and the South side of Williams has a lot of old manufacturing uses and no one wants to invest in a new home and look at the old buildings.

- Another oddity was that the Zoning Code includes areas designated as specific plans that were not approved. In addition, the General Plan/Zoning Map shows the details of the Specific Plan land uses, which is not a common practice. Most of the specific plans have expired because the developer did not follow-through and get their entitlements approved. The current General Plan/Zoning Map has zoning that perhaps a new plan would not want, such as Five Bridges and Lariat (these specific plans have expired).

- Creation of the Highway Serving Commercial (HSC) Land Use District/Zoning. In the previous General Plan/Zoning Code, the General Commercial zone ran all along Ramsey Street from 4th Street to Highland Springs Avenue. The HSC zone is now along Ramsey from 8th Street to Sunset Avenue, thereby creating many non-conformities such as Cho’s Nursery, Hollywoods Pet Grooming, all professional offices, such as State Farm Insurance and all real estate offices.

**Housing Element and Density**

The Housing Element has been updated and has since been reviewed by the State Housing and Community Development twice. The State provided additional comments. Due to an issue with the current consultant contract, the housing element is pending while the City is resolving the housing element contract with the Consultant.

One of the outstanding issues in the State comments relates to density. The State is requiring that the City of Banning rezone additional sites to accommodate high density residential housing for the purpose of complying with the Regional Housing Needs Assessment (RHNA) requirements. The State is requesting the density of a minimum 30 units per acre. Staff will be bringing a proposal to the Planning Commission and City Council related to rezoning to address state requirements.

**CONCLUSION**

The City has done a commendable job of implementing the General Plan as evidenced by the implementation or completion or has an ongoing status of 85% of its action programs.

PC Resolution No. 2011-01
RESOLUTION NO. 2011-01

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF BANNING, CALIFORNIA RECOMMENDING TO THE CITY COUNCIL THE APPROVAL OF GENERAL PLAN ANNUAL REPORT FOR YEAR 2010

WHEREAS, the California state law requires that each city and county adopt a general plan to guide development in their city and land outside its boundaries that has relation to its city planning (Govt. Code §65300); and

WHEREAS, the City undertook a comprehensive update to the General Plan and Zoning Ordinance which were adopted by the City Council on January 31, 2006; and

WHEREAS, the California State law requires that the General Plan include seven (7) mandated elements: land use, housing, traffic circulation, safety, parks and recreation, conservation, and noise; and

WHEREAS, the City of Banning General Plan has 21 elements (seven [7] of which are mandated by the State) and contains 263 implementation action programs; and

WHEREAS, Government Code §65400 mandates that cities and counties in California submit an annual report on the status of the General Plan and progress in its implementation to their decision makers (City Council or board of supervisors), the Governor’s Office of Planning and Research (OPR) and the Housing and Community Development (HCD) by April 1st of each year; and

WHEREAS, the purpose of the General Plan annual report is to provide enough information to identify the necessary “course adjustments” or modifications to the General Plan and means to improve local implementation; and

WHEREAS, the City is also required to report progress in implementing its housing element and the Regional Housing Needs Assessment as part of the annual report; and

WHEREAS, the economic recession has hampered development in the community, including housing construction because financial institutions have tighter regulations and are not lending any construction loans; and

WHEREAS, the City continues to take proactive steps in implementing the goals, policies and action programs of the General Plan; and
WHEREAS, the City has implemented, completed and/or has an active/ongoing status of 222 action programs (85%) out of 263 action programs. Only 41 action programs (15%) have not been completed and/or initiated. In summary, the City has done a good job of implementing the General Plan. The primary reasons some of the action programs have not been completed/initiated relates to budget deficits, reduction in staff, and work program priority for each of the City departments; and

WHEREAS, Exhibit “A” to this report contains the reporting forms on progress for implementing the Housing Element; and

WHEREAS, Exhibit “B” to this report details the implementation action programs and status; and

WHEREAS, the Planning Commission has reviewed the General Plan Annual Report at its meeting on March 2, 2011; and

NOW THEREFORE, the Planning Commission of the City of Banning does hereby find, determine, and resolve as follows:

SECTION 1: Compliance with Government Code Section 65400.

The Planning Commission determined that this General Plan Annual Report is prepared for compliance with Government Code Section 65400.

SECTION 2: Recommendation to the City Council.

The Planning Commission has reviewed and recommend approval of the General Plan Annual Report to the City Council and directed staff to file the report with the State Office of Planning and Research and the State Housing and Community Development.

PASSED, APPROVED AND ADOPTED this 2nd day of March 2011.

Bill Escandel, Chairman
Banning Planning Commission

### Title 24 Compliance
- **Residential development must comply with Title 24**
  - **Status**: Currently implemented.
  - **Timeline**: Ongoing and through 2014

### Sustainable Development Standard
- **Established Ordinance to create standards for sustainable development**
  - **Status**: Implemented through the Californian Green Building Code
  - **Timeline**: Ongoing and through 2014

### Inventory of Vacant Land
- **Create an inventory and update it annually. Post approved project information on the website**
  - **Status**: Delayed due to budget and staffing cuts
  - **Timeline**: Ongoing and through 2014

### CalHFA Housing Program
- **The CRA to provide direct mailing to all residents advertising CalHFA programs**
  - **Status**: Not implemented due to budget cuts
  - **Timeline**: Ongoing and through 2014

### Partner with non-profit and for-profit housing developers and pursue available funding
- **Pursue other funding sources for affordable housing and provide incentive**
  - **Status**: Delayed due to budget and staffing cuts. The CRA is partnering with San Gorgonio Pass Habitat for Humanity to build and rehabilitate affordable housing.
  - **Timeline**: Ongoing and through 2014

### Rezoning of the Downtown Commercial District
- **Rezone to allow development of higher density between 15-30 units per acre and allow mixed-use development**
  - **Status**: Additional sites for rezoning is being evaluated.
  - **Timeline**: July 2010

### Provide Incentives for development in the newly rezoned Downtown Commercial District
- **The City and CRA to offer incentives**
  - **Status**: Not implemented pending further reasoning. Funding incentives will be reevaluated since the City and CRA have structural deficits in their budgets.
  - **Timeline**: Ongoing and through 2014

### City and CRA Funding for multi-family projects
- **Established partnerships with developers of multi-family housing projects who have proven track record and City and Agency to consider funding.**
  - **Status**: Funding incentives will be reevaluated since the City and CRA have structural deficits in their budgets.
  - **Timeline**: By December 2010

### State and Federal Funding
- **Pursue various state and federal funding**
  - **Status**: No implementation due to limited staffing and budget cuts
  - **Timeline**: Ongoing and through 2014

### Density Bonus
- **Review Zoning Ordinance to incorporate density bonus**
  - **Status**: Delayed due to budget and staffing cuts
  - **Timeline**: FY 2009-10

### Annual review of Housing Element
- **Review element annually and report to the State HCS**
  - **Status**: On-going as part of the annual report on progress of implementing the General Plan.
  - **Timeline**: By April 1st each year

### Eliminate Envelopment and Incompatible Use
- **Use the General Plan and Zoning to eliminate incompatible uses**
  - **Status**: Ongoing
  - **Timeline**: Ongoing and through 2014

### Land inventory for single-family and multi-family development and zone change
- **Monitor and initiate zone change to accommodate affordable housing**
  - **Status**: Delayed due to budget and staffing cuts
  - **Timeline**: Quarterly basis

### Second Unit
- **Adopt a second unit ordinance to comply with Government Code 65592.2**
  - **Status**: Completed
  - **Timeline**: by July 2010

### Second Unit Building Plan Standards
- **Adopt standard plan for second unit to reduce costs or no costs**
  - **Status**: Delayed due to budget and staffing cuts
  - **Timeline**: Ongoing and through 2014

### AB 2262 - Cannot Lower Density Unless Trade-off
- **Implement the law**
  - **Status**: Ongoing due to budget and staffing cuts
  - **Timeline**: July 2006

### Homeless Shelter
- **Zoning Code amendment to permit homeless shelter by right**
  - **Status**: Delayed due to budget and staffing cuts
  - **Timeline**: July 2010

### Fair Housing Laws
- **Implement annual meeting with residents who receive housing assistance to ensure their understanding of the law and reaffirm their commitment**
  - **Status**: Implement through the CRA first time homebuyers program
  - **Timeline**: Ongoing and through 2014

### Fair Housing Information
- **Develop flyers and distribute the information through various means including outreach events, school fairs, health fairs, and City-sponsored events**
  - **Status**: On-going and is provided at the Community Development Center and the website.
  - **Timeline**: Ongoing and through 2014

### Housing Complaints Resolution
- **Work with State Fair Employment & Housing Commission to resolve complaints**
  - **Status**: Ongoing
  - **Timeline**: Ongoing and through 2014

Introduction

The following discussion will provide a summary of the progress in achieving the Goals, Policies and Implementation Programs for each of the 21 General Plan elements. Each General Plan Element contains implementation programs that identify each department(s) responsible for implementation of the programs and outlines the timing/schedule to complete the programs. The elements have been alphabetized for easier reference. The programs that have been completed and/or active and ongoing are highlighted in bold and the programs that have not been completed are highlighted in italics.
Air Quality Element (11 programs)

GOAL 1
To preserve and enhance local and regional air quality for the protection of the health and welfare of the community.

Policy 1
The City shall be proactive in regulating local pollutant emitters and shall cooperate with the Southern California Association of Governments and the South Coast Air Quality Management District to assure compliance with air quality standards.

Policy 2
The City shall continue to coordinate and cooperate with local, regional and federal efforts to monitor, manage and reduce the levels of major pollutants affecting the City and region, with particular emphasis on PM$_{10}$ and ozone emissions, as well as other emissions associated with diesel-fueled equipment and motor vehicles.

Program 2.A
On an on-going basis, the City shall continue to participate in efforts to monitor and control PM$_{10}$ emissions from construction and other sources, and all other air pollutants of regional concern. The City shall coordinate with SCAQMD to provide all reporting data for the SCAQMD annual report.

<table>
<thead>
<tr>
<th>Responsible Agency</th>
<th>Building and Public Works Departments, Planning Department, SCAQMD</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schedule</td>
<td>Continuous: On-going</td>
</tr>
</tbody>
</table>

**Implementation Status:** Ongoing through Development Review Process, standard conditions for Public Works. The City consulted with the SCAQMD with regard to air quality impacts from land development projects.

Policy 3
City land use planning efforts shall assure that sensitive receptors are separated from polluting point sources.

Program 3.A
The General Plan Land Use Map and Element shall be developed and maintained to locate air pollution point sources, such as manufacturing operations and highways, at an appropriate distance from sensitive receptors, including hospitals, schools, hotels/motels and residential neighborhoods.

<table>
<thead>
<tr>
<th>Responsible Agency</th>
<th>Planning Department, SCAQMD</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schedule</td>
<td>2005-2006</td>
</tr>
</tbody>
</table>

**Implementation Status:** Implemented through application of zoning regulations and consultation with the SCAQMD through CEQA review related land development projects that may have the potential to impact sensitive receptors.

Policy 4
Development proposals brought before the City shall be reviewed for their potential to adversely impact local and regional air quality and shall be required to mitigate any significant impacts.

Program 4.A
Projects that may generate significant levels of air pollution shall be required to conduct detailed impact analyses and incorporate mitigation measures into their designs using the most advanced technological methods feasible. All proposed mitigation measures shall be reviewed and approved by the City prior to the issuance of grading or demolition permits.
**Program 4.B**
Provide consistent and effective code enforcement of construction and grading activities and off-road vehicle use to assure that the impacts of blowing sand and fugitive dust emissions are minimized.

**Responsible Agency:** Building Department, Code Compliance, SCAQMD

**Schedule:** On-going

**Implementation Status:** Ongoing through standard approval process and also monitoring during construction.

**Program 4.C**
The City shall encourage immediately, and investigate legislating the reduction of TDM requirements to a level of 50 employees or more.

**Responsible Agency:** Public Works Department/Planning Dept

**Schedule:** 2005-2006 Pending

**Implementation Status:** Pending

---

**Policy 5**
The City shall promote the use of clean and/or renewable alternative energy sources for transportation, heating and cooling.

**Program 5.A**
Vehicles that use alternative fuel sources, such as compressed natural gas and electricity, shall be purchased and maintained for use in the City’s vehicle fleet when new vehicles are purchased.

**Responsible Agency:** City Manager’s Office

**Schedule:** 2005-2006

**Implementation Status:** New city vehicles that are purchased use compressed natural gas and the implementation is on-going.

**Program 5.B**
The City’s Compressed Natural Gas fueling station shall continue to be open to public use.

**Responsible Agency:** Public Works Department

**Schedule:** On-going

**Implementation Status:** Active and Ongoing.

---

**Policy 6**
The City shall support the development of facilities and projects that facilitate and enhance the use of alternative modes of transportation, including pedestrian-oriented retail and activity centers, dedicated bicycle paths and lanes, and community-wide multi-use trails.

**Program 6.A**
The City shall pursue a balance of employment and housing opportunities that encourage pedestrian and other non-motorized transportation and minimize vehicle miles traveled.

**Responsible Agency:** Economic Development Department, Redevelopment Agency, Planning Department

**Schedule:** On-going

**Implementation Status:** On-going as new development is proposed. The Butterfield Specific Plan (Pardee) will incorporate commercial development with active walking/jogging trails, bike paths, and...
neighborhood electric vehicles. The Village at Paseo San Gorgonio is a Downtown redevelopment project that encourages people to walk and enjoy the outdoor environment.

<table>
<thead>
<tr>
<th>Program 6.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall promote the expanded availability of mass transit services, coordinating with all agencies to link residential and commercial business and employment centers with the City’s residential neighborhoods and nearby communities.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Community Services Department, Economic Development Department, Redevelopment Agency, Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status</strong> - The City coordinates with other regional transit such as the Riverside Transit Agency and attends regional transit meetings. Expansion will occur when population increases demand for expanded service. The City Manager is pursuing opportunities for a regional rail/transit station.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 6.C</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall promote and support the development of ridesharing, carpooling, flexible work scheduling, telecommuting and Park and Ride programs among public and private employers.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, Public Works Department, Community Services Department, Transit Agencies, Major Employers</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status</strong> - Ongoing as the City currently has a four day work week (4/10 work schedule). This program is codified in Chapter 8.60 of the Municipal Code.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 6.D</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall require shade trees with non-damaging root systems to be planted in all medians on all streets, to cool the asphalt and reduce the Reactive Organic Compounds (ROC) and Volatile Organic Compounds (VOC) generated by asphalt streets and parking lots. A list of permitted trees with non-damaging root systems shall be developed.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, Public Works Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status</strong> - Ordinance in place, Active and Ongoing. Public Works reviews street tree plans for acceptable species; Planning requires one tree for every seven (7) parking spaces in the parking lot.</td>
</tr>
</tbody>
</table>
Archaeological and Cultural Resources Element (13 programs)

GOAL 1
Documentation, maintenance, preservation, conservation and enhancement of archaeological and historic sites, artifacts, traditions and other elements of the City’s cultural heritage.

Policy 1
The City shall exercise its responsibility to identify, document and evaluate archaeological, historical and cultural resources that may be affected by proposed development projects and other activities.

<table>
<thead>
<tr>
<th>Program 1.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>All new development proposals, except single family dwelling on existing lots of record, shall submit a records search for historic and cultural resources as part of the planning process.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006, Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Ongoing and is implemented through the CEQA process during land development review.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>Development or land use proposals which have the potential to disturb or destroy sensitive cultural resources shall be evaluated by a qualified professional and, if necessary, comprehensive Phase I studies and appropriate mitigation measures shall be incorporated into project approvals.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Standard conditions for grading.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.C</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall implement the requirements of state law relating to cultural resources, including Government Code 65352.3, and any subsequent amendments or additions.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> City consults with tribal representatives on all land development projects.</td>
</tr>
</tbody>
</table>

Policy 2
The City shall expand and enhance its historic preservation efforts.

<table>
<thead>
<tr>
<th>Program 2.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepare a historic preservation plan, which outlines the goals and objectives of the City’s preservation programs and serves as an official historic context statement for the evaluation of cultural resources within the City boundaries.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2006-2007</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Not implemented.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 2.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall consider participating in the Certified Local Government program so that it may benefit from historic preservation expertise, technical assistance, special grants, information exchange, and statewide preservation programs coordinated by the State Office of Historic Preservation. The evaluation of participation in the program shall be part of the historic preservation plan.</td>
</tr>
</tbody>
</table>
**Program 2.C**
Encourage property owners and residents to nominate qualified properties to the City’s inventory system and/or any federal and state registers.

**Responsible Agency:** Planning Department, Morongo Band of Cahuilla Indians
**Schedule:** Ongoing
**Implementation Status:** Not implemented.

**Program 2.D**
Should the Saint Boniface School site be proposed for development, extensive analysis of the site shall be conducted, and mitigation proposed, to document its historic significance.

**Responsible Agency:** Planning Department
**Schedule:** 2005-2006, Ongoing
**Implementation Status:** Tract map approved but a project is not yet developed.

**Policy 3**
Establish and maintain a confidential inventory of archaeological and historical resources within the City, including those identified by the Eastern Information Center (EIC) at the University of California, Riverside and in focused cultural resources studies.

**Policy 4**
Sensitive archaeological and historic resources shall be protected from vandalism and illegal collection, to the greatest extent possible.

**Program 4.A**
Mapping and similar information, which identifies specific locations of sensitive cultural resources, shall be maintained in a confidential manner, and access to such information shall be provided only to those with appropriate professional or organizational ties.

**Responsible Agency:** Planning Department
**Schedule:** Immediate; continuous
**Implementation Status:** Not implemented.

**Policy 5**
Encourage public participation in and appreciation of the City’s cultural heritage.

**Program 5.A**
Implement a systematic program to enhance public awareness of the City’s heritage, generate broad support for its preservation, and enhance community pride.

**Responsible Agency:** Planning Department, Historical Society, City Council, Morongo Band of Mission Indians
**Schedule:** 2005-2006, Ongoing
**Implementation Status:** Not implemented.

**Program 5.B**
Support the efforts of local cultural associations to acquire historical materials and artifacts, and to educate the public about the City’s and region’s cultural heritage.
**Policy 6**
Support the listing of eligible structures or sites as potential historic landmarks and their inclusion in the National Register of Historic Places.

**Program 6.A**
Develop procedures for the designation of local landmarks and historic districts.

**Responsible Agency:** Planning Department, Historical Society, Morongo Band of Mission Indians
**Schedule:** 2005-2006
**Implementation Status:** Not implemented

**Policy 7**
The City shall consider offering economic or other incentives, such as direct subsidies or application/permitting fee reductions or waivers, to property owners to encourage the maintenance and enhancement of significant cultural buildings and sites.

**Program 7.A**
Develop an application process for City-sponsored incentives to maintain and enhance significant buildings and sites, and provide property owners with information and guidance on eligibility requirements.

**Responsible Agency:** Planning Department
**Schedule:** 2006-2007
**Implementation Status:** Not implemented
### Biological Resources Element (7 programs)

#### GOAL 1
A pattern of community development that supports a functional, productive, harmonious and balanced relationship between the built and natural environment.

#### Policy 1
The City shall continue to participate in the preservation of habitat for endangered, threatened and sensitive species.

<table>
<thead>
<tr>
<th>Program 1.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Through the Western Riverside MSHCP, maintain an accurate and regularly updated map of sensitive plant and animal species and habitat in Banning and its planning area.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006, Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Implemented as required by the MSHCP.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall participate in the Western Riverside County Multiple Species Habitat Conservation Plan.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, Riverside County</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Implemented as required by the MSHCP.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.C</th>
</tr>
</thead>
<tbody>
<tr>
<td>City staff shall continue to request biological resource surveys for new development.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, Riverside County</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Continuous</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Implemented as required by the MSHCP and through the CEQA review process.</td>
</tr>
</tbody>
</table>

#### Policy 2
As part of the development review process, the City shall evaluate projects based on their impact on existing habitat and wildlife, and for the land’s value as viable open space.

<table>
<thead>
<tr>
<th>Program 2.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall encourage developers to recover native and drought tolerant plant materials, and incorporate them into project landscaping, to provide or enhance habitat for local species.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Ongoing part of land development review process.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 2.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall make available at City Hall a listing of planting materials that emphasizes native vegetation, but may also include non-native, plants that are compatible with the local environment.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006, Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Landscape Guidelines contain the list.</td>
</tr>
</tbody>
</table>
Policy 3
The City shall encourage and cooperate with other agencies in establishing multiple use corridors that take advantage of drainage channels and utility easements as wildlife corridors, public access and links between open space areas and the built environment.

Program 3.A
The City shall consult and coordinate with the Riverside County Flood Control District to encourage the establishment of a system of multiple use corridors for movement of people and wildlife between open space areas.

Responsible Agency: Planning Department, Riverside County Flood Control District

Schedule: 2005-2006, Ongoing

Implementation Status: Future trail plans that are proposed to be constructed adjacent to flood control facilities will be coordinated with the Riverside County Flood Control District.

Policy 4
Drainage channels, utility corridors and pipeline easements shall be preserved in natural open space to the greatest extent possible.

Policy 5
The City shall promote the protection of biodiversity and encourage an appreciation of the natural environment and biological resources.

Program 5.A
The City shall coordinate with the Banning and Beaumont Unified School Districts, the County and other agencies as identified, to provide educational programs that offer an understanding of the region’s natural environment and make the public aware of biological resource issues.

Responsible Agency: Planning Department, Banning and Beaumont Unified School Districts, Riverside County, and others as identified

Schedule: 2005-2006, Ongoing

Implementation Status: Not implemented.
Circulation Element (38 programs)

GOAL 1
A safe and efficient transportation system.

Policy 1
The City's Recommended General Plan Street System shall be strictly implemented.

Program 1.A
Street rights of way shall be 134 feet for Urban Arterial Highways, 110 feet for Arterial Highways, 100 feet for Major Highways, 88 feet for Secondary Highways, 78 feet for Divided Collectors, 66 feet for Collectors, and 60 feet for Local Streets. Local street standards can be amended as described in Policy 2.

Responsible Agency: Planning Department, Public Works Department, Planning Commission, City Council

Schedule: 2005-2006, Ongoing

Implementation Status: Implemented through development process.

Program 1.B
The City's Public Works roadway standards shall be amended to match the standards contained in this General Plan.

Responsible Agency: Public Works Department

Schedule: 2005-2006

Implementation Status: The roadway standard plans will be completed by December 2011.

Program 1.C
Minimum lane width for all City streets shall be designed at 12 feet.

Responsible Agency: Planning Department, Public Works Department, Planning Commission, City Council

Schedule: 2005-2006, Ongoing, implementation

Implementation Status: Ongoing standard requirement for all development projects.

Policy 2
Local streets shall be scaled to encourage neighborhood interaction, pedestrian safety and reduced speeds.

Program 2.A
The design of new local streets can vary from the City's standard of 60 foot right-of-way, 40 foot paved width, under the following conditions:

1. The minimum travel lane width shall be 12 feet.
2. Parking shall be provided on at least one side of any public street. Parking lanes shall be a minimum of 8 feet in width.
3. Parking may be eliminated on private streets, if provisions are made in Conditions, Covenants and Restrictions (CC&R's) for enforcement by the Homeowners’ Association.
4. Landscaped traffic circles, chokers, and center islands are encouraged, but must meet the requirements of the Fire Department.
5. The minimum parkway width shall be 10 feet.
6. Linear sidewalks are discouraged. Meandering sidewalks, which provide landscaping and street trees adjacent to the curb, shall be included in local street design.

The design of local streets varying from the City's standard, shall be included in the Tentative Tract Map application, and shall be reviewed by the Planning Commission and approved by the City Council.
**Program 2.B**
Existing local streets will be inventoried, and a master plan of potential improvements designed to improve their aesthetic and safety, including landscaped medians, sidewalks and traffic calming devices, shall be developed, cost engineered, and implemented.

**Responsible Agencies:** Public Works Department, Planning Commission, City Council

**Schedule:** 2006-2007

**Implementation Status** — Ongoing; CIP program adopted and being implemented.

**Policy 3**
The City shall establish and maintain a 5-Year Capital Improvement Program for streets.

**Program 3.A**
The Public Works Department shall establish a Capital Improvement Program for 5 years, and update it annually.

**Responsible Agency:** Public Works Department

**Schedule:** 2006-2007

**Implementation Status** — Capital Improvement Program approved & being implemented.

**Policy 4**
Proactively participate in regional transportation planning.

**Program 4.A**
Maintain active relationships with the City of Beaumont, the County of Riverside, the Western Riverside County Council of Governments, the California Department of Transportation and the Morongo Band of Mission Indians to share information and promote comprehensive transportation planning in the region.

**Responsible Agency:** Public Works Department, City Manager’s Office, City Council, City of Beaumont, County of Riverside, WRCOG, CalTrans, Tribe

**Schedule:** 2005-2006

**Implementation Status** — Ongoing.

**Program 4.B**
Aggressively pursue Banning projects in the Transportation Uniform Mitigation Fee (TUMF) program, particularly the addition of projects to the TUMF project list, including grade separated road crossings.

**Responsible Agency:** Public Works Department

**Schedule:** 2005-2006

**Implementation Status** — Ongoing; Funding being secured for Sunset Grade Separation Project.

**Program 4.C**
Aggressively pursue the design and development of interchanges at Highland Home Road and Cottonwood Road (North - South), including all sources of funding, and the coordination of I-10 widening with their installation.

**Responsible Agency:** Public Works Department, City Manager’s Office, City Council, CalTrans, Railroad

**Schedule:** 2005-2006

**Implementation Status** — Feasibility for Highland Home Road completed; however, the construction
of the full interchange is not feasible due to design and right-of-way issues and lack of funding. The interchange is not included in the Caltrans State Transportation Improvement Plan. The Cottonwood Road is under consideration.

Policy 5
Consider amendments to the Highland Home/HIGHLAND SPRINGS/18th Street/Brookside street configurations based on public safety, design feasibility and area needs.

Policy 6
The City shall maintain peak hour Level of Service C or better on all local intersections, except those on Ramsey Street and at I-10 interchanges, where Level of Service D or better shall be maintained.

Program 6.A
Periodically review current traffic volumes and the actual pattern of development to coordinate, program and, as necessary, revise road improvements.

Responsible Agency: Public Works Department

Schedule:
Implementation Status - Ongoing & Active.

Policy 7
New development proposals shall pay their fair share for the improvement of streets within and surrounding their projects on which they have an impact, including roadways, bridges, grade separations and traffic signals.

Policy 8
Traffic calming devices shall be integrated into all City streets to the greatest extent possible and all new streets shall be designed to achieve desired speeds.

Policy 9
Street trees within the City right of way shall be preserved, unless a danger to the public health and safety or if the tree is diseased.

Program 9.A
Sidewalks in areas with street trees shall be designed to "wrap around" the tree if they are added to an existing neighborhood.

Responsible Agency: Public Works Department

Schedule: Ongoing

Implementation Status - Ongoing.

Policy 10
Sidewalks shall be provided on all roadways 66 feet wide or wider. In Rural Residential land use designation pathways shall be provided.

Program 10.A
The Public Works Department shall prepare an inventory of discontinuous sidewalks on all qualifying roadways, and fund individual projects through the Capital Improvement Program annually.

Responsible Agency: Public Works Department, City Council

Schedule: Inventory in 2006-2007, Annually thereafter

Implementation Status - Annually through CIP.
Program 10.B
All new development proposals located adjacent to qualifying roadways shall be required to install curb, gutter and sidewalk concurrent with construction.

Responsible Agency: Public Works Department, Planning Department
Schedule: Ongoing
Implementation Status - Ongoing through land development review and CIP.

Program 10.C
The City shall develop procedures to address neighborhood sidewalk needs as they are requested by that neighborhood.

Responsible Agency: Public Works Department
Schedule: 2005-2006, Ongoing
Implementation Status - Ongoing as needed.

Program 10.D
Work with the School District to develop safe routes to school.

Responsible Agency: Public Works Department
Schedule: 2005-2006, Ongoing
Implementation Status - Ongoing.

Policy 11
Sidewalks or other pedestrian walkways shall be required on all streets within all new subdivisions.

Policy 12
In the absence of a vehicular grade separation, the City shall aggressively pursue a grade separated pedestrian access across San Gorgonio, to assure that high school students do not have to cross the railroad tracks on their way to and from school.

Policy 13
Pedestrian access in the Downtown Commercial designation shall be preserved and enhanced.

Program 13.A
All development and redevelopment proposals for the Downtown area shall include enhanced sidewalk, pedestrian walkway, lighting and landscaping designs and assure connections to existing and planned sidewalks.

Responsible Agency: Public Works Department, Planning Department
Schedule: As development proposals are presented
Implementation Status - New development, including the Village at Pasco San Gorgonio in Downtown will include all elements in this policy.

Policy 14
The City shall aggressively pursue the construction of all weather crossings over General Plan roadways.

Program 14.A
The Public Works Department shall prioritize the need for bridges listed in this Element, develop preliminary cost estimates, identify and pursue sources of funding, including developer funding, for each facility.

Responsible Agency: Public Works Department, City Council
Schedule: 2005-2006, Annually thereafter
Implementation Status - Ongoing CIP and through private development funding. Sunset Avenue.
Program 14.B
All new development proposals shall pay their fair share of bridge construction needed to serve their project.

**Responsible Agency:** Public Works Department, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Implemented through land development review process.

**Policy 15**
The City shall develop a Golf Cart Plan compliant with state requirements.

Program 15.A
The City shall develop a golf cart plan and associated ordinances and other required implementation programs.

**Responsible Agency:** Public Works Department, City Council

**Schedule:** 2006-2007

**Implementation Status:** Citywide golf cart plan is not implemented due to lack of funding. However, future golf courses that are to be developed as part of development will require a golf cart plan that connects homes to commercial development within the project or beyond based on future opportunities.

**Policy 16**
Golf cart paths and facilities shall be funded, to the greatest extent possible, by new development.

Program 16.A
The routing and facilities required in the Golf Cart Plan shall be incorporated into the Development Impact Fee when the Plan is adopted.

**Responsible Agency:** Public Works Department

**Schedule:** 2006-2007

**Implementation Status:** Not implemented since there is no Citywide golf cart plan.

Program 16.B
Golf cart facilities shall be incorporated into new project plans located on golf cart routes.

**Responsible Agency:** Planning Department, Public Works Department, Planning Commission, City Council

**Schedule:** 2005-2006, Ongoing

**Implementation Status:** Implemented case-by-case based on future development. The proposed Butterfield Specific Plan (Pardee Homes) includes golf cart routes connecting homes to the commercial area in the development.

**Policy 17**
Encourage the expansion of an integrated Pass transit system.

Program 17.A
The City will explore the potential for either bus or rail connection to the Metrolink transit system.

**Responsible Agency:** City Manager's Office, Community Services Department

**Schedule:** 2006-2007, Ongoing

**Implementation Status:** Ongoing and the City Manager is actively pursuing this matter.

**Policy 18**
The City shall review its transit service to major regional attractions, and intra-City recreational locations in future planning efforts, based on need.

**Policy 19**
Bus pullouts shall be designed into all new projects on arterial roadways, to allow buses to leave the flow of traffic and reduce congestion.

**Program 19.A**
Bus pullouts will be retrofitted on built-out streets, wherever possible.

**Responsible Agency:** Public Works Department, City Council

**Schedule:** 2006-2007, Ongoing

**Implementation Status:** Ongoing.

**Policy 20**
Promote the location of a passenger rail station for long distance and commuter rail service.

**Policy 21**
Update the Airport Master Plan every five years to meet the needs of the general aviation, business and tourism segments of the community.

**Program 21.A**
Land use designation decisions within the area of influence of the airport shall be specifically reviewed to assure compatibility.

**Responsible Agency:** Planning Commission, City Council

**Schedule:** Ongoing

**Implementation Status:** Ongoing through land development review process.

**Program 21.B**
Work with the Chamber of Commerce, the Morongo Band of Mission Indians, and other interested parties to provide services which meet the needs of passenger and freight transport.

**Responsible Agency:** Airport Management, Economic Development staff, Chamber of Commerce, Morongo Band of Mission Indians, City Council

**Schedule:** Ongoing

**Implementation Status:** Ongoing, implemented through the Airport Committee.

**Policy 22**
Maintain an accurate mapping of all utility corridors.

**Program 22.A**
The Building Department shall inventory and map transmission utility easements on the Land Use Map (including electric, fiber optics, natural gas and petroleum).

**Responsible Agency:** Building Department, Planning Department

**Schedule:** Inventory in 2005-2006, Annually thereafter
Implementation Status – The State of California requires these maps to be maintained through the Service Alert System. There has been no comprehensive inventory conducted by the city. The Electric Utility Department maintains its own inventory of electric utility lines.

Policy 23
The City shall purchase and/or replace its fleet of vehicles with alternate fuel vehicles when available to the greatest extent possible, and shall encourage other agencies to do the same.

Policy 24
Public alleys throughout the City shall be maintained to be useful and safe at all times.

Program 24.A
The City shall create a downtown alley master plan and where appropriate pave, light and otherwise improve alleys.

Responsible Agency: Public Works Department
Schedule: Ongoing
Implementation Status: Ongoing

Program 24.B
The Public Works Department shall inventory all public alleys, determine which are necessary, and vacate those that are not.

Responsible Agency: Public Works Department, City Council
Schedule: 2006-2007
Implementation Status: Ongoing and active.

Policy 25
The City shall develop and implement plans for a coordinated and connected bicycle lane network in the community that allows for safe use of bicycles on City streets.

Program 25.A
The City shall inventory all streets for potential Class I, Class II and Class III bikeways, and shall program their installation in its Capital Improvement Program.

Responsible Agency: Planning Department; Engineering Division; Public Works Department; Planning Commission; City Council
Implementation Status: Not yet completed.

Program 25.B
Class I bikeways and sidewalks should be installed on both sides of Wilson Street, Ramsey Street, and Lincoln Street, and other major streets where sufficient right-of-way is available.

Responsible Agency: Engineering Division; Public Works Department
Schedule: 2005-2006, Ongoing
Implementation Status: Not yet completed.

Program 25.C
Class II bikeways and sidewalks should be designated on all existing arterial streets that have sufficient width to safely accommodate bicycle travel lanes.

Responsible Agency: Planning Department; Engineering Division; Public Works Department
**Policy 26**
The City should continue to work with the Morongo Band of Mission Indians and neighboring cities and communities to create a regional bicycle and trail network.

**Policy 27**
The City shall provide for a comprehensive, interconnected recreational trails system suitable for bicycles, equestrians and/or pedestrians.

**Program 27.A**
Evaluate the practicality of utilizing flood control channels for multi-use trails, where flooding and safety issues can be accommodated, and negotiate inter-agency agreements for this purpose.

**Responsible Agency:** Planning Department

**Schedule:** 2005-2006.

**Implementation Status:** Ongoing through land development review process.

**Program 27.B**
Evaluate the practicality of developing a multi-use trails system along the Banning Bench adjacent to and extending into San Bernardino National Forest lands, where environmental and safety issues can be accommodated, and negotiate inter-agency agreements with the U.S. Forest Service for this purpose.

**Responsible Agency:** Planning Department, U.S. Forest Service/San Bernardino National Forest

**Schedule:** 2005-2006.

**Implementation Status:** Not yet completed.

**Program 27.C**
Establish a multi-purpose trail between Dysart Park and Smith Creek Park, suitable for equestrian, bicycle and pedestrian use.

**Responsible Agency:** Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

**Schedule:** 2005-2006, ongoing as development occurs.

**Implementation Status:** Not yet completed.

**Policy 28**
Motorized vehicles shall be prohibited on City trails.

**Program 28.A**
The City shall develop a non-motorized trail system and associated ordinances and other required implementation programs.

**Responsible Agency:** Public Works Department, Planning Commission, City Council

**Schedule:** 2006-2007

**Implementation Status:** Not completed.

Economic Development Element (20 programs)

GOAL 1
A balanced, broadly-based economy that provides a full range of economic and employment opportunities, while maintaining high standards of development and environmental protection.

Policy 1
General Plan land use designations and allocations will facilitate a broad range of residential, commercial, industrial and institutional development opportunities.

Program 1.A
The city shall annually monitor the remaining capacity of all General Plan land use categories to assure that a variety of economic development opportunities are available.

Responsible Agency: Planning Department, Redevelopment Agency
Schedule: 2005-2006, Annually thereafter
Implementation Status - On-going.

Program 1.B
All proposals for new development or redevelopment shall be evaluated to assure that these uses complement, support and are compatible with the City's core economic assets.

Responsible Agency: Planning Department, Redevelopment Agency, Finance Department, City Council
Schedule: Continuous
Implementation Status - On-going.

Policy 2
The City shall take a proactive role in the retention of existing businesses and the recruitment of new businesses, particularly those that generate and broaden employment opportunities, increase discretionary incomes, and contribute to City General Fund revenues.

Program 2.A
Work closely with Mount San Jacinto College throughout their planning process to assist in its efficient and timely development, implement educational programs geared to job creation and retention, and to coordinate synergistic development opportunities.

Responsible Agency: Redevelopment Agency, Mount San Jacinto College
Schedule: 2005-2006, Ongoing
Implementation Status - Phase 1 of the Mt. San Jacinto Community College development was completed in December 2010. New phases are in progress. The improvements in and around the state courthouse project site are in progress for the ground breaking of the courthouse in July 2011.

Program 2.B
Aggressively pursue retail commercial developments which reduce the current retail sales leakage.

Responsible Agency: Redevelopment Agency, Chamber of Commerce
Schedule: Ongoing
Implementation Status - Active and ongoing contacts with retailers and developers through letters, e-mails, and phone calls. Attended ICSC national and regional tradeshows and market the City.

Program 2.C
Continue to maximize the role of the Chamber of Commerce, City web site and other mechanisms that
promote and enhance the City’s business climate.

**Responsible Agency:** Redevelopment Agency, Chamber of Commerce

**Schedule:** Ongoing

**Implementation Status - Active and on-going.**

### Policy 3

Encourage and promote infill development in orderly and logical development patterns that decrease the costs, and increase the efficiency of new utilities, infrastructure, and public services.

**Program 3.A**

The City shall maintain a package of economic incentive programs that benefit developers of infill projects.

**Responsible Agency:** Redevelopment Agency, Finance Department

**Schedule:** 2005-2006

**Implementation Status -** The City Council adopted the Electric Utility incentive program for existing business expansion and new business. The City also provided a one-stop shop program where developers can meet with City staff at no cost in advance of their formal application to the City. The City also has a single point of contact from start to the completion of the construction.

**Program 3.B**

The City shall contribute to the financing of tertiary treatment facilities as an economic development tool.

**Responsible Agency:** Redevelopment Agency

**Schedule:** 2006-2007

**Implementation Status - Not yet completed.**

**Program 3.C**

Use the Downtown Charette as a guideline for the Downtown Commercial area, for the development of high quality, pedestrian oriented retail locations.

**Responsible Agency:** Planning Department, Redevelopment Agency, Planning Commission, City Council

**Schedule:** 2005-2007, Ongoing

**Implementation Status - Ongoing.**

### Policy 4

Attract a greater number of commercial retail businesses to the Downtown Core area to develop a safe, vital and consumer-friendly downtown shopping area.

**Program 4.A**

Provisions for the Downtown Commercial Zoning District shall encourage specialty retail uses, live-work uses, and other uses which support and expand the pedestrian and tourist-related shopping experience.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** 2005-2006

**Implementation Status - Ongoing.**

**Program 4.B**

The City shall coordinate with public, private and business organizations to explore grant funding to provide funds for rehabilitation and increased code enforcement in the Downtown Core area.

**Responsible Agency:** Redevelopment Agency, Chamber of Commerce, City Council

**Schedule:** 2005-2006; Continuous

**Implementation Status - The Community Redevelopment Agency enters into a number of Owner Participation Agreements with the business community who desire to upgrade the facade of their**
buildings. Code Enforcement efforts are ongoing in the Downtown and throughout the City.

Program 4.C
The City shall work with CABAM and other citizen groups with an interest in development of the Downtown core area, to identify grant monies, private development interests and business synergies to build on existing revitalization activities in this area.

Responsible Agency: Redevelopment Agency, CABAM, development community
Schedule: 2005-2006; Continuous
Implementation Status: Currently working with Cultural Alliance and other citizen groups.

Policy 5
Explore opportunities with private entities to fund Smith Creek Park as a viable recreation area.

Program 5.A
Update the Smith Creek Park master plan and actively market this development opportunity among private entities that could fund development and provide for future maintenance of the park and improvements.

Responsible Agency: Community Services Department, Redevelopment Agency, City Council, development community
Schedule: 2006-2007
Implementation Status: Not implemented

Policy 6
Encourage and facilitate highway-serving commercial development at appropriate Interstate-10 interchanges within the City limits.

Program 6.A
Proactively work with CalTrans to improve on- and off-ramp landscaping and improvements to provide more attractive gateways to the City.

Responsible Agency: Planning Department, Redevelopment Agency, CalTrans
Schedule: 2005-2006; Ongoing
Implementation Status: Currently working with CalTrans to improve the Highland Springs interchange and S. Street on and off ramps.

Program 6.B
Preserve highway commercial land use designations at interchange locations, and encourage the location of high quality freeway-serving businesses.

Responsible Agency: Planning Department, Redevelopment Agency
Schedule: 2005-2006; Ongoing
Implementation Status - Implemented through Zoning and land development review process.

Program 6.C
Code compliance on gateway streets and properties adjacent to Interstate 10 shall be strictly enforced.

Responsible Agency: Code Enforcement
Schedule: Ongoing

Implementation Status - Ongoing.

Policy 7
Explore joint funding opportunities for the improvement of existing at-grade rail crossings, and investigate necessary infrastructure and funding to extend rail access to lands designated for industrial development.

Program 7.A
Consult with representatives of the Railroad, state and federal legislators, and appropriate state agencies to apply for available funding for these improvements.

Responsible Agency: Redevelopment Agency, Public Works Department, Railroad, City Council
Schedule: 2005-2006, Ongoing

Implementation Status - Grant received for Sunset grade separation / SETS grant submitted for water and sewer improvements east of Hargrave.

Policy 8
In order to maintain existing economic activities and attract new commercial and industrial development, the City shall assure the provision of adequate utilities, infrastructure, and other capital facilities.

Policy 9
All development interests, including residential, commercial and industrial project proponents, shall be responsible for their fair share of on-site and off-site improvements required to support their development proposals. Such improvements may include, but are not limited to, street construction and signalization, grade separation, utility extension, drainage facilities, and parks.

Program 9.A
The Community Redevelopment Agency shall consider requests for assistance from project developers for the development of infrastructure and compare them to the economic benefit of the proposed project.

Responsible Agency: Redevelopment Agency
Schedule: 2005-2006, Ongoing

Implementation Status - Ongoing efforts by Redevelopment to fund requests.

Program 9.B
Proactively work with the Riverside County Transportation Commission in putting Banning projects on the highest priority within the Transportation Uniform Mitigation Fee (TUMF) program.

Responsible Agency: City Manager's Office, City Engineer, City Council
Schedule: Ongoing

Implementation Status - Ongoing. Attend and participate at monthly meetings with RCTC.

Policy 10
Continue to cultivate cooperative relationships with the Morongo Band of Mission Indians and Bureau of Indian Affairs, particularly regarding development of Indian lands within and adjacent to the planning area, and development and enhancement of community facilities that provide joint benefit to the Tribe and the City.
Policy 11
The City will have a comprehensive tourism plan.

Emergency Preparedness Element (8 programs)

GOAL 1
A detailed, integrated and comprehensive emergency preparedness plan for the City, ensuring a high level of readiness and responsiveness to man-made and natural disasters of any scope, and which maximizes response capabilities of the City, County, State and Federal governments.

Policy 1
The City shall maintain and update its Multi-Hazard Functional Planning Guidance document to ensure maximum operational functionality and to incorporate federal mandates by required deadlines.

Program 1A
The City shall maintain close communication and coordination with Riverside County to expedite adaptation of and compliance with the federal NIMS program.

**Responsible Agency:** City Manager, Disaster Preparedness Coordinator, Riverside County Emergency Services Department

**Schedule:** 2005

**Implementation Status:** The Emergency Services Coordinator/Fire Marshal has completed "NIMSCAST," the national online NIMS compliance evaluation program developed by FEMA. Continual updates will be done on "NIMSCAST" to ensure current information about the City's compliance is recorded. The latest update was in November 2010. The Emergency Services Coordinator/Fire Marshal monitors the City's Compliance with SEMS and NIMS and provides training or training opportunities to ensure SEMS and NIMS compliance. The organizational chart was updated in December 2010.

Policy 2
The City shall maintain and update the Banning Emergency Plan to keep it updated with staffing and technical capabilities of the City and cooperating agencies.

Program 2A
Periodically schedule and direct the review and revision of the Banning Emergency Plan.

**Responsible Agency:** City Manager, Disaster Preparedness Coordinator, Riverside County Emergency Services, Other City Departments, Sun Lakes EPAP

**Schedule:** Every two years.

**Implementation Status:** The City's Emergency Operations Plan was updated and approved by the City Council in August 2007. The plan requires review and updates, as needed, every two years. The latest update was in December 2010.

Policy 3
The City shall identify and establish emergency evacuation and supply routes and plans to preserve or reestablish the use of Highland Springs Avenue, San Gorgonio Avenue, Wilson Street, Ramsey Street, Interstate-10 and other essential transportation routes.

Program 3A
Through PASSCOM or other appropriate regional organization, the City shall coordinate with adjoining cities, Riverside County, the Morongo Band of Mission Indians and CalTrans to facilitate the designation of emergency evacuation and supply routes, and for the development of a multi-agency emergency response plan that provides expeditious and timely repair to major streets and highways damaged by earthquakes.
flooding or other disasters.

**Responsible Agency:** City Manager, Disaster Preparedness Coordinator, Public Works Department, Cities of Beaumont and Calimesa, Riverside County Emergency Services, CalTrans, Morongo Band of Mission Indians

**Schedule:** Continuous

**Implementation Status:** The Emergency Services Coordinator/Fire Marshal is working with the Emergency Services Coordinator of the Morongo Band of Mission Indians to establish a Mutual Aid Agreement between the Tribe and the City for mutual assistance during disasters. Work continues to designate and develop an alternate east/west route through the Pass Area should I-10 become impassable. Agreement in principle between County of Riverside, Banning City, and Morongo Band of Mission Indians for a route south of I-10. Currently no funds available to proceed.

**Policy 4**
The City shall identify and establish emergency appropriate locations for emergency supply stockpiles.

<table>
<thead>
<tr>
<th><strong>Program 4.A</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Through County-provided CERT training or other appropriate community venues, the City shall recruit decentralized locations where stockpiles of food, water and emergency medical supplies may be stored and maintained.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> City Manager, Disaster Preparedness Coordinator, Public Works Department, Riverside County Emergency Services</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Continuous</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> Nothing accomplished as of December 20, 2007 regarding stockpiling food and water except for supplies for use by EOC personnel during a disaster. For medical emergencies the Fire Department has purchased a trailer and equipped it to handle “Mass Casualty” incidents. The trailer is stocked with medical and rescue supplies. The County of Riverside provided money for a conex with food and water to be placed on the Banning bench, but the city has not had the funds to provide that within the city. Work continues with local communities to stockpile as a community and also be personally prepared.</td>
</tr>
</tbody>
</table>

**Policy 5**
The City shall cooperate and coordinate with Riverside County Emergency Services, local utility purveyors and other agencies and utilities in the preparation of public information materials to assist residents, visitors and business owners in responding to local disasters and emergencies.

<table>

</tbody>
</table>
advise the community on how to prepare for and cope in a local disaster or emergency.

**Responsible Agency:** City Council, City Manager, Disaster Preparedness Coordinator, Riverside County Emergency Services, Banning Unified School District, Sun Lakes EPAP, private schools, nursing homes, and various local business organizations

**Schedule:** Continuous

**Implementation Status - Ongoing Implementation.**

**Program 5.C**
Encourage and train community volunteers to assist police and fire personnel during and after a major emergency.

**Responsible Agency:** City Manager, Disaster Preparedness Coordinator, Riverside County Emergency Services, Sun Lakes EPAP

**Schedule:** Continuous

**Implementation Status - The Fire Department has an active volunteer program. Emergency Services Coordinator/Fire Marshal, along with one Council member and a citizen volunteer, has provided numerous training programs related to neighborhoods preparing for disasters. PASSCOMM, County OES, and local groups have provided local training and preparedness.**

**Policy 6**
The City shall thoroughly consider and assess vulnerability to natural and manmade disasters or emergencies when reviewing proposals for the siting and development of critical and essential public/quasi-public facilities.

**Program 6.A**
In order to assure the maximum possible protection from environmental and manmade hazards, including earthquakes and flooding, the City shall consider their vulnerability to natural and manmade disasters and emergencies when reviewing proposals for critical and essential facilities, as well as sensitive land uses.

**Responsible Agency:** Planning Department, Public Works Department, Fire Department

**Schedule:** Continuous

**Implementation Status - This is being accomplished as evidenced by the cooperative efforts between Fire and Public Works to mitigate flooding and mudslides after the 2006 fires. The combined efforts have continued with fire and public works to prepare for and mitigate storm damage with fire crews from Oak Glen camp in 2010 and will continue.**
Energy and Mineral Resources Element (9 programs)

**GOAL 1**
Efficient, sustainable and environmentally appropriate use and management of energy and mineral resources, assuring their long-term availability and affordability.

**Policy 1**
Promote energy conservation throughout all areas of the community and sectors of the local economy, including the planning and construction of urban uses and in City and regional transportation systems.

<table>
<thead>
<tr>
<th>Program 1.A</th>

Policy 2
Promote the integration of alternative energy systems, including but not limited to solar thermal, photovoltaic's and other clean energy systems, directly into building design and construction.

Program 2.A
The City shall make available to residents, businesses, and the building industry information on commercially available conservation technologies, solar thermal and photovoltaic energy systems, fuel cell and other alternative energy technology. Building regulations and guidelines that provide for the safe and efficient installation of these systems shall also be provided.

Responsible Agency: Building Department, Community Development Department, Public Works Department, Electric Utility

Schedule: 2006-2007, Ongoing

Implementation Status: Active and ongoing. Interconnection programs are still available for customers wishing to install "behind the meter" generation. However rebate funds have been exhausted.

Policy 3
Proactively support long-term strategies, as well as state and federal legislation and regulations, that assure affordable and reliable production and delivery of electrical power to the community.

Policy 4
Support public and private efforts to develop and operate alternative systems of wind, solar and other electrical production, which take advantage of local renewable resources.

Program 4.A
Support and facilitate the integration of co-generation and other on-site energy production and management systems into larger industrial, commercial and institutional operations in the City to enhance operational efficiencies, reliability, and to provide additional opportunities for local power production.

Responsible Agency: Public Works Department; Planning Department; Building Department; Electric Utility

Schedule: Ongoing

Implementation Status: Active and Ongoing.

Policy 5
Assure a balance between the availability of mineral resources and the compatibility of land uses in areas where mineral resources are mined.

Program 5.A
The City shall monitor and regulate the safe and environmentally responsible extraction and recycling of significant mineral resources located within the planning area.

Responsible Agency: Community Development Department, Public Utilities Department

Schedule: Ongoing.

Implementation Status: Not implemented.

Program 5.B
The City shall establish a formal relationship with the County Geologist or other qualified agency to monitor mineral resource operations under SMARA.

Responsible Agency: Planning Department, Riverside County Geologist.

Schedule: 2005-2006
Program 5.C
The City shall strictly enforce the provisions of the existing mining permit within City limits.

**Responsible Agency:** Code Compliance, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Not completed.
Flooding and Hydrology Element (12 programs)

GOAL 1
A comprehensive system of flood control facilities and services effectively protecting lives and property.

Policy 1
Proactively plan and coordinate with other responsible agencies to upgrade the City’s local and regional drainage system.

Program 1.A
Continued implementation of the recommendations of the 1994 RCFC Master Drainage Plan study.

**Responsible Agency:** Public Works Department, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.

Program 1.B
Capital Improvement Plans for drainage management and control shall be developed, updated and maintained and shall be based upon the Master Drainage Plan project descriptions.

**Responsible Agencies:** Public Works Department, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Completed.

Program 1.C
Monitor and update the Master Plan of Drainage every five years to reflect changes in local and regional drainage and flood conditions.

**Responsible Agencies:** Public Works Department, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.

Program 1.D
Require all new development to complete on site drainage analysis and improvements, at their expense, as part of project development.

**Responsible Agencies:** Public Works Department, Planning Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing, part of development process.

Policy 2
Major drainage facilities, including debris basins and flood control channels, shall be designed to maximize their use as multi-purpose recreational or open space sites, consistent with the functional requirements of these facilities.

Program 2.A
Coordinate and cooperate with RCFC in achieving multi-use agreements within flood control channels and designing safe, attractive recreational facilities that maintain the functional requirements of the drainage facilities.

**Responsible Agencies:** Public Works Department, Planning Department, RCFC

**Schedule:** Ongoing

**Implementation Status:** Ongoing; through SP’s and other projects adjacent to Flood Control.
Program 2.B
Work with RCFC to design drainage and flood control facilities that minimize negative aesthetic impacts and retain natural groundcover and vegetation to the greatest extent possible.

Responsible Agencies: Public Works Department, Planning Department, RCFC, US Army Corps of Engineers

Schedule: Ongoing
Implementation Status: Ongoing. Through entitlement process when designs are submitted for approval.

Policy 3
The City Engineer shall continue to actively participate in regional flood control and drainage improvement efforts and to develop and implement mutually beneficial drainage plans.

Policy 4
The City shall cooperate in securing FEMA map amendments, recognizing the importance of redesignation of the 100-year flood plains within the City boundaries and sphere-of-influence as improvements are completed.

Program 4.A
In conjunction with the RCFC, the City shall coordinate and cooperate in the filing of appropriate FEMA application materials to incrementally secure amendments to the Flood Insurance Rate Maps for the City, consistent with existing and proposed improvements.

Responsible Agencies: Public Works Department, Planning Department, RCFC

Schedule: Ongoing
Implementation Status: Ongoing.

Policy 5
Pursue all credible sources of funding for local and regional drainage improvements needed for adequate flood control protection.

Program 5.A
Consider the establishment of Area Drainage Plans or Assessment Districts for purposes of funding necessary drainage improvements in particular geographic areas of the City.

Responsible Agencies: Public Works Department, Planning Department, Economic Development Agency, Developers

Schedule: Ongoing
Implementation Status: Not yet completed.

Program 5.B
Explore County funding, state funding under the Cobey-Alquist Flood Plain Management Act, other State programs, and federal funding options for local and area-wide flood control projects.

Responsible Agencies: Public Works Department, Planning Department, Economic Development, State; County

Schedule: Ongoing
Implementation Status: Ongoing.
**Policy 6**
All new development shall be required to incorporate adequate flood mitigation measures, such as grading that prevents adverse drainage impacts to adjacent properties, on-site retention of runoff, and the adequate siting of structures located within flood plains.

Geotechnical Element (7 programs)

GOAL 1
Increased protection and safety of human life, land, and property from the effects of seismic and geotechnical hazards.

Policy 1
The City shall establish and maintain an information database containing maps and other information which describe seismic and other geotechnical hazards occurring within the City boundaries, sphere-of-influence and planning area.

Program 1.A
Consult and coordinate with surrounding communities, the California Division of Mines and Geology, Riverside County, other applicable state and federal agencies, and professional engineering geologists to establish, improve and routinely update the database.

 Responsible Agency: Planning Department, California Division of Mines and Geology, Riverside County, Consulting Geologists

Schedule: 2005-2006; Continuous

Implementation Status: Continuous.

Policy 2
In accordance with state law, all development proposals within designated Alquist-Priolo Earthquake Fault Zones shall be accompanied by appropriate geotechnical analysis.

Program 2.A
Establish a cooperative agreement with the County Geologist, State Geologist, contract state-certified geologist, or contract geological engineer to review and determine the adequacy of geotechnical and fault hazard studies prepared within the City.

 Responsible Agency: City Engineer/Consulting Engineering Geologist

Schedule: 2005-2006, Ongoing

Implementation Status: Completed.

Policy 3
Development in areas identified as being susceptible to slope instability shall be avoided unless adequately engineered to eliminate geotechnical hazards.

Program 3.A
The City shall make available copies of the General Plan Slope Instability Susceptibility Map and discourage development within areas so designated, or require detailed geotechnical analysis and mitigation measures that reduce potential hazards to insignificant levels.

 Responsible Agency: Planning Department, City Engineer/Consulting Engineering Geologist

Schedule: 2005-2006, Ongoing

Implementation Status: Ongoing, implemented through new grading ordinance.
Policy 4
To minimize the potential impacts of subsidence due to extraction of groundwater, the City shall actively support and participate in local and regional efforts at groundwater conservation and recharge.

Program 4.A
Consult and coordinate with the City of Banning Public Utilities – Water Department, U.S. Geological Survey, and other appropriate agencies to routinely monitor groundwater levels and surface elevations in the City.

Responsible Agency: City of Banning Public Utilities – Water Department, U.S. Geological Survey

Schedule: Continuous

Implementation Status – Continuous.

Program 4.B
The City shall encourage the preparation of, support and participate in, the study of the temporary surplus of the Beaumont Water Basin and its impact on subsidence.

Responsible Agency: Water Department, Beaumont/Cherry Valley Water District, San Gorgonio Pass Water Agency

Schedule: Ongoing

Implementation Status – Not Completed.

Policy 5
The City shall coordinate and cooperate with public and quasi-public agencies to assure the continued functionality of major utility systems in the event of a major earthquake.

Program 5.A
Maintain working relationships and strategies between the Public Works Department (wastewater and electric), utilities, and other appropriate agencies to strengthen or relocate utility facilities, and take other appropriate measures to safeguard major utility distribution systems.

Responsible Agency: Planning Department, Public Works Department, City Engineer, Public and Quasi-Public Utilities

Schedule: 2004-05; Ongoing

Implementation Status – Ongoing, through pre applications, development meetings and with PAC.

Policy 6
New septic tank leach fields, seepage pits, drainage facilities, and heavily irrigated areas shall be located away from structural foundations and supports to minimize the potential for localized collapse of soils.

Program 6.A
The City shall require that development applications include plans indicating the location of leach fields, seepage pits, drainage facilities, and water-dependent landscaping so that City staff may evaluate the potential for ground saturation.

Responsible Agency: Planning Department, Building Department, City Engineer

Schedule: 2005-2006, Ongoing

Implementation Status – Through grading review, part of development review process.
Hazardous and Toxic Materials Element (10 programs)

GOAL 1
Maintain and promote measures to protect life and property from hazards resulting from human activities and development.

Policy 1
The City shall continue to encourage research on potential and known hazards to public health and safety and make this information available to the general public, commercial interests, and governmental organizations.

Policy 2
The City shall continue to conduct and participate in studies with other agencies to identify existing and potential hazards to public health and safety.

Program 2.A
Maintain, coordinate, and update the location of hazardous spills as a result of accident or intentional action, and community evacuation plans.

**Responsible Agencies:** Fire Department, Planning Department, County Health Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.

Program 2.B
The Fire Department shall maintain a citywide Emergency Response Program, which provides for emergency services in the event of a hazardous spill or airborne release.

**Responsible Agencies:** Fire Department, City Manager’s Office, County Health Department

**Schedule:** Ongoing

**Implementation Status:** SIMS & NEMS ongoing training.

Program 2.C
Coordinate with responsible agencies to assure enforcement of state and federal regulations for the testing and monitoring of underground fuel storage tanks for leakage.

**Responsible Agencies:** Fire Department, state and federal EPA, County Health Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing activity with fire.

Policy 3
The City shall thoroughly evaluate development proposals for lands directly adjacent to sites known to be contaminated with hazardous or toxic materials, traversed by natural gas transmission lines or fuel lines, or sites that use potentially hazardous or toxic materials.

Program 3.A
Consult with the County of Riverside Department of Health on a quarterly basis to identify existing and new hazardous waste sites within the General Plan study area.

**Responsible Agencies:** Planning Department, Fire Department, County Health Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.
Program 3.B
A Conditional Use Permit shall be required for all new development that generates, transports, uses or stores significant amounts of hazardous materials.

| Responsible Agencies: Planning Department |
| Schedule: Ongoing |
| Implementation Status - Ongoing |

Policy 4
Require and facilitate the adequate and timely cleanup of contaminated sites identified within the City of Banning and its sphere-of-influence.

Program 4.A
Coordinate with responsible county, state and federal agencies to activate cleanup procedures, and monitor the status of cleanup efforts on an ongoing basis.

| Responsible Agencies: Planning Department, Fire Department, State and federal EPA, County Health Department, California Regional Water Quality Control Board |
| Schedule: Ongoing |
| Implementation Status - Ongoing |

Policy 5
The City shall designate appropriate access routes to facilitate the transport of hazardous and toxic materials.

Program 5.A
Coordinate with the Fire Department, Police Department, neighboring jurisdictions, and other appropriate agencies to identify segments of highway or local roads that shall be restricted from transporting hazardous and toxic materials in order to preserve public safety.

| Responsible Agencies: Planning Department, Fire Department, Police Department |
| Schedule: 2005-2006 |
| Implementation Status - Not yet completed |

Program 5.B
Enforce roadway access restrictions and consider the implementation of fines or penalties for violations.

| Responsible Agencies: Fire Department, Police Department |
| Schedule: 2005-2006 |
| Implementation Status - Not yet completed |

Policy 6
Continue to promote programs that encourage or educate the public in the proper handling and disposal of household hazardous waste or dangerous materials.

Program 6.A
Establish a Household Hazardous Waste program through the City's solid waste contractor.

| Responsible Agencies: City Manager's office, solid waste contractor |
| Schedule: Ongoing |
| Implementation Status - Ongoing |

Policy 7
The City shall actively oppose plans to establish hazardous or toxic waste dumps, landfills, or industrial processes that may potentially adversely affect the City and its Sphere-of-Influence.
**Policy 8**

Maintain an inventory and information database, including mapping, of all major natural gas transmission lines and liquid fuel lines within the City limits and Sphere of Influence.

<table>
<thead>
<tr>
<th><strong>Program 8.A</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall ensure that location of all major natural gas transmission lines and liquid fuel lines that run though the City are clearly identified, that right-of-way and maintenance easements are maintained, and that all existing and proposed development are located a safe distance from these lines.</td>
</tr>
</tbody>
</table>

| **Responsible Agencies:** | Building and Safety, Planning Department, Fire Department |
| **Schedule:** | Ongoing |
| **Implementation Status –** | Ongoing |
Housing Element (16 programs)

GOAL 1
Housing Opportunities - Provide a wide range of housing types to meet the existing and future needs of planning area residents.

Policy 1
Provide a variety of residential development opportunities in Banning, ranging from very low density to high density development as described in the Community Development Element and Plan Map in accordance with the Regional Housing Needs Assessment.

Program 1.A
The City, through planning and regulatory actions will designate adequate housing sites to meet its RHNA allocation for each income level (Objective 1,780 dwelling units through June 30, 2005 as follows: 481 very-low income, 289 low-income, 405 moderate-income and 605 above moderate income).

Responsible Agency: Community Development; City Council; Planning Commission
Schedule: January 1, 1998 – June 30, 2005
Implementation Status - The housing element update for 2006-2014 is in progress.

Program 1.B
City to assist Riverside County in advertising the shared housing program by placing program brochures in key locales throughout the community and contacting agencies serving seniors so they are aware of the program (Objective 10 roommate matches per year)

Responsible Agency: Community Development Department & Redevelopment Agency
Schedule: Current and On-going
Implementation Status - Not implemented.

Policy 2
Encourage both the private and public sectors to produce or assist in the production of high quality housing to meet the needs of the handicapped, the elderly, large families, female-headed households and homeless.

Policy 3
Promote the development of low- and moderate-income, and senior citizen housing by allowing developers density bonuses or other financial incentives for providing units for low- and moderate-income residents. Provide rental assistance vouchers, as available, for some or all of the affordable units provided.

Program 3.A
Continue implementing “Density Bonuses and Other Incentives for Lower Income and Senior Housing”, and to annually evaluate the program to ensure the Density Bonuses and Other Incentives are effective in encouraging developers to include projects containing housing affordable to low- or moderate-income households.

Responsible Agency: Community Development Department & Redevelopment Agency
Schedule: Current and on-going
Implementation Status - Developers are encouraged to take advantage of the housing density bonus and other city incentives.
**Program 3.B**
Participate in one bond-funded housing project for ownership housing and one for rental housing during the five-year period of this Housing Element. To achieve these objectives, Agency staff will do the following during 2001

**Responsible Agency:** Community Development Department & Redevelopment Agency  
**Schedule:** One project each in 2003 and 2004  
**Implementation Status:** Not implemented.

**Program 3.C**
The City of Banning will maintain its cooperative agreement with the County for the mortgage credit certificate program and should assist the County in advertising the program through distribution of program brochures to local realtors and residential sales offices.

**Responsible Agency:** Community Development Department & Redevelopment Agency  
**Schedule:** Current and on-going  
**Implementation Status:** Ongoing.

**Program 3.D**
Establish ongoing working relationship with at least one nonprofit organization to administer housing programs and/or affordable housing developments

**Responsible Agency:** Community Development Department & Redevelopment Agency  
**Schedule:** Meet with non-profits organizations by June 2001 and establish partnerships by December 2001  
**Implementation Status:** Ongoing.

**Program 3.E**
The City can facilitate use of Section 8 program by encouraging apartment owners to list available rental units with the County Housing Authority for potential occupancy by tenants receiving Section 8 certificates.

**Responsible Agency:** Community Development Department & Redevelopment Agency  
**Schedule:** Current and on-going  
**Implementation Status:** Ongoing.

**Policy 4:**
Require that housing constructed expressly for low- and moderate-income households not be concentrated in any single portion of the City.

**Policy 5:**
Continue to coordinate with local social service providers, such as HELP, to address the needs of the City's homeless population. Permit the development of emergency shelters in commercial and industrial zones, and transitional housing in residential zones in locations close to services, subject to a Conditional Use Permit.

**Program 5.A**
Designation of specific zones in which emergency and transitional facilities will be permitted.

**Responsible Agency:** Community Development Department & Redevelopment Agency  
**Schedule:** site analysis and code amendments by September 2001  
**Implementation Status:** Ongoing.

**Policy 6:**
Encourage the development of residential units which are accessible to handicapped persons or are adaptable for conversion to residential use by handicapped persons.
Policy 7: Locate higher density residential development in close proximity to public transportation, services and recreation.

Policy 8: Permit the development of childcare facilities concurrent with new housing development.

Policy 9: Monitor all regulations, ordinances, departmental processing procedures and fees related to the rehabilitation and/or construction of dwelling units to assess their impact on housing costs.

Program 9.A
The City will provide a one-stop process for a developer with an affordable housing project. An interagency approval process system will be established to include the City Planning, Building, Public Works and Fire Departments. A designated individual within the Planning Department will act as the project manager, or liaison, for the participating City departments and the applicant. A timeframe with milestones for development approval will be established for each project to ensure processing in a timely manner. The City will also prepare a permit handbook that explains the permits process and application requirements.

Responsible Agency: Community Development Department & Redevelopment Agency

Schedule: December 2001

Implementation Status – One-stop process is implemented and is for all projects, including affordable housing.

Program 9.B
Maintain development fees at a level commensurate with the services and facilities needed to meet community standards

Responsible Agency: Community Development Department & Redevelopment Agency

Schedule: Current and on-going

Implementation Status – Development fees, along with Citywide fees are currently being reviewed.

Program 9.C
Improve permit processing efficiency and reduce permit processing time.

Responsible Agency: Community Development Department & Redevelopment Agency

Schedule: December 2001

Implementation Status – Active and ongoing process as part of Permit Streamlining Act.

Policy 10:
Encourage the use of energy conservation devices and passive design concepts which make use of the natural climate to increase energy efficiency and reduce housing costs.

Policy 11:
Provide opportunities for move-up housing in Banning.

GOAL 2

Maintenance and Preservation – Enhance the quality of existing residential neighborhoods in Banning.

Policy 1:
Correct housing deficiencies through the development of a residential rehabilitation program.
Program 1.A
Administer a Home Improvement Program to provide loans to eligible lower income families for necessary home repair and rehabilitation work, including room additions to alleviate overcrowding. Rehabilitate 15 dwelling units per year (75 over 5 years)

Responsible Agency: Community Development Department & Redevelopment Agency

Schedule: Current and on-going; Rehabilitate 15 dwelling units per year (75 over 5 years)

Implementation Status - Active and on-going.

Policy 2:
Continue to utilize the City's code enforcement program to bring substandard units into compliance with City codes and to improve overall housing conditions in Banning.

Program 2.A
The City will continue its sensitive enforcement of residential Building codes, and will inform property owners in violation of City codes of any rehabilitation assistance he/she may be eligible for in correcting code violations. To implement this Program, the City will fund a half-time position for a Neighborhood Code Enforcement Officer.

Responsible Agency: Community Development Department & Code Enforcement

Schedule: Establish a 2-year Pilot Program by FY 2001/02; Status report to Council by July 1, 2003 evaluating program.

Implementation Status: Ongoing.

Policy 3:
Minimize the displacement impacts occurring as a result of residential demolition.

Policy 4:
Promote increased awareness among property owners and residents of the importance of property maintenance to long-term housing quality.

Program 4.A
The Redevelopment Agency will purchase abandoned homes and provide necessary rehabilitation. This program was formerly administered in conjunction with the Banning Partners for a Revitalized Community, which is no longer active. A new program, along the same lines, had been administered by the Banning Redevelopment Agency. The Redevelopment Agency and HUD have purchased four homes to restore and are currently looking for a non-profit agency to partner to start

Responsible Agency: Community Development Department & Code Enforcement

Schedule: Current and on-going; Rehabilitate 5 dwelling units per year (25 over 5 years)

Implementation Status - Ongoing through contract with Habitat for Humanity.

Policy 5:
Encourage the use of rehabilitation funds for room additions to alleviate overcrowding, and for accessibility improvements to address the needs of the handicapped.

Policy 6:
Educate property owners on the benefits of home repair and remodeling using design and materials consistent with the historic character of the residence.
GOAL 3

Environmental Sensitivity - Ensure that new housing is sensitive to existing development as well as the natural environment.

Policy 1:
Ensure that multi-family development is compatible in design with single-family residential areas.

Policy 2:
Regularly examine new residential construction methods and materials, and upgrade the City's residential building standards as appropriate.

Policy 3:
Prohibit new residential development to front on major arterial highways without adequate setbacks and buffering.

Policy 4:
Prohibit housing development in areas subject to significant geologic, flooding, blow sand, noise and fire hazards.

Policy 5:
Accommodate new residential development which is coordinated with the provision of infrastructure and public services.

<table>
<thead>
<tr>
<th>Program 5.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City will continue to use the Design Review Process to evaluate site suitability. Under design review criteria, housing should be located on sites that are physically adequate and environmentally suitable for such development and compatible with existing nearby development. These criteria will provide a yardstick for the City to identify and evaluate potential sites for environmentally sound housings.</td>
</tr>
</tbody>
</table>

| Responsible Agency: Community Development Department & Redevelopment Agency |
| Schedule: Current and on-going. |
| Implementation Status: New infill housing is encouraged in developed areas of town to make use of current infrastructure. |

Policy 6: Encourage the use of energy conservation devices and passive design concepts which make use of the natural climate to increase energy efficiency and reduce housing costs.

GOAL 4

Fair Housing – Promote equal opportunity for all residents to reside in the housing of their choice.

Policy 1:
Affirm a positive action posture which will assure that unrestricted access is available to the community.

Policy 2:
Prohibit practices which restrict housing choice by arbitrarily directing prospective buyers and renters to certain neighborhoods or types of housing.
Policy 3:
Continue support and participation in the Riverside County New Horizons' Fair Housing Program to further spatial de-concentration and fair housing practices.

<table>
<thead>
<tr>
<th>Program 3.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Promote equal housing opportunity; educate the public, real estate industry representatives, lenders, and property owners on fair housing requirements; promptly refer and resolve fair housing disputes.</td>
</tr>
</tbody>
</table>

**Responsible Agency:** Community Development Department & Redevelopment Agency

**Schedule:** Current and on-going.

**Implementation Status:** Ongoing.
Land Use Element (17 programs)

GOAL 1
A balanced, well planned community including businesses which provides a functional pattern of land uses and enhances the quality of life for all Banning residents.

Policy 1
The City maintain a land use map which assures a balance of residential, commercial, industrial open space and public lands.

Program 1.A
The city shall annually monitor the remaining capacity of all General Plan land use categories and recommend changes to the City Council as needed.

**Responsible Agency:** Planning Department, Planning Commission

**Schedule:** 2005-2006, Annually thereafter

**Implementation Status:** Ongoing.

Program 1.B
The City's Zoning Ordinance shall directly correspond to General Plan land use designations, and shall be kept consistent with the General Plan.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** 2005-2006, Annually thereafter

**Implementation Status:** Ongoing.

Policy 2
The Planning, Public Works and Economic Development staffs shall be closely coordinated, to assure efficient and cost effective processing of applications.

Program 2.A
The City shall develop a Fast Track application process for projects which enhance the City's economic development. Procedures and timelines shall be provided to qualifying project applicants in writing.

**Responsible Agency:** Planning Department, Public Works, Economic Development staff, Redevelopment Agency, City Manager's Office

**Schedule:** 2005-2006

**Implementation Status:** Ongoing and complies with Permit Streamlining Act.

Policy 3
Development in all land use categories shall be of the highest quality.

Program 3.A
The Zoning Ordinance shall include design standards and guidelines which assist the development community in developing high quality projects.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** 2005-2006

**Implementation Status:** Completed.
Policy 4
Specific Plans shall be required for projects proposing one or more of the following:

a. More than one residential land use designation;
b. A combination of residential, recreational, commercial and/or industrial land use designation; or
c. Extension of infrastructure (water, sewer and roadways) into an area where these do not exist.

Policy 5
All land use proposals shall be consistent with the goals, policies and programs of this General Plan, and with the Zoning Ordinance.

Policy 6
The City shall implement a program for Art in Public Places.

Program 6.A
An Art in Public Places Ordinance shall be prepared and incorporated into the Municipal Code.

| Responsible Agency: Community Services Department, Planning Department, Planning Commission, City Council. |
| Schedule: 2005-2006 |
| Implementation Status – Art in Public Places is currently required as part of new development in Downtown Commercial zoning district. |

Residential Goals, Policies and Programs:

GOAL 1
Preserve and enhance the City’s neighborhoods.

GOAL 2
A broad range of housing types to fill the needs of the City’s current and future residents.

Policy 1
The land use map shall provide a range of housing densities while considering land use compatibility with non-residential land uses.

Policy 2
Projects adjacent to existing neighborhoods shall be carefully reviewed to assure that neighborhood character is protected.

Policy 3
Density transfers resulting in a 50% increase in density shall be permitted in the Residential/Agriculture-Hillside and Rural Residential-Hillside land use designations.

Policy 4
The City’s Zoning Ordinance shall include design standards and guidelines which encourage high quality residential development.
Program 4.A
Design standards and guidelines shall be included in all residential zoning categories.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** 2005-2006

**Implementation Status:** Standards and guidelines contained in zoning ordinance.

**Policy 5**
The City shall complete Specific Neighborhood Plans when requested by the neighborhood.

Program 5.A
Develop and implement an outreach program and outline of parameters for Neighborhood Plans.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** 2006-2007; As requested by neighborhoods

**Implementation Status:** Ongoing.

**Policy 6**
The Zoning Ordinance shall include principles, standards and guidelines which allow for creative and flexible design of residential projects, including clustered housing, narrowed local streets, trails, parks and plazas.

**Policy 7**
The Zoning Ordinance shall include principles, standards and guidelines which provide for high quality, high density mixed use residential development, in the Downtown Commercial zoning designation.

**Policy 8**
The City will participate in a Community Plan for the Banning Bench with Riverside County and the Banning Bench Community of Interest. Specific development proposals will continue to be processed during its preparation.

**Program 8.A**
Negotiate with the Banning Bench Community of Interest as part of the Master Plan for either inclusion in the City’s Sphere of Influence or annexation.

**Responsible Agency:** City Council, Community of Interest

**Schedule:** 2005-2006

**Implementation Status:** Not yet completed.

**Commercial Goals, Policies and Programs:**

**GOAL 1 - Commercial**

Complementary commercial uses which meet the needs of the City’s residents, increase the City’s revenues, and provide a range of employment opportunities.

**GOAL 2 - Industrial**

A balanced mix of non-polluting industrial land uses which provide local jobs for the City’s residents.

**Policy 1**
The land use map shall include sufficient commercial lands to provide a broad range of products and services to the City and region, while carefully considering compatibility with adjacent residential lands.
Policy 2
In coordination with the Economic Development Element, the City shall maintain market information, including information on the City’s identified service needs, potential sites, Fast Track System and provide information on those sites to the development community.

Program 2.A
Develop and maintain an inventory of potential commercial sites, including lands which may require consolidation, and demographic information for use by the Economic Development staff in attracting new businesses to the City.

Responsible Agency: Economic Development staff, Planning Department, City Manager’s Office
Schedule: 2005-2006
Implementation Status – In progress.

Program 2.B
The Redevelopment Agency shall consider land purchases which allow for the consolidation of smaller, under-utilized commercial sites into larger and more useable parcels, to be marketed to the development community.

Responsible Agency: Redevelopment Agency
Schedule: Ongoing as lands are identified
Implementation Status – Ongoing.

Policy 3
The Zoning Ordinance shall include principles, design standards and guidelines which encourage the development of high quality commercial projects.

Policy 4
The Zoning Ordinance shall include principles, design standards and guidelines, based on the Downtown Design Charette, which provide for high quality, pedestrian oriented retail development in the Downtown Commercial zoning designation.

Policy 5
The City shall coordinate with the Banning Unified, the Beaumont Unified School Districts and the Mount San Jacinto Community College to provide vocational education to support commercial and industrial businesses in the City and surrounding areas.

Policy 6
The City shall develop and implement a community identification program, including monument signage, directional signs, etc. which provide attractive entry statements for the City, and which direct visitors to local points of interest.

Policy 7
The land use map shall include sufficient industrial lands for manufacturing, warehousing and distribution, while carefully considering compatibility with adjacent lands.

Policy 8
Industrial lands shall be located on major roadways with good access to Interstate 10, to assure that potential traffic impacts associated with tractor-trailers are minimized.
Policy 9
The Redevelopment Agency will consider purchases of residential properties occurring in the industrial land use designations when they are put up for sale.

<table>

</tbody>
</table>

Policy 10
The Zoning Ordinance shall include principles, design standards and guidelines which encourage the development of high quality industrial projects.

Policy 11
Industrial campuses and master planned projects are encouraged.

Policy 12
The City shall coordinate with developers and the Railroad to secure railroad spurs.

Policy 13
The City shall adequately regulate sand and gravel operations to assure that their impacts to surrounding development is minimized.

<table>

</table>
been working with the Finance Department to develop a plan for Fire and Police Community Funding districts in new developments.

Policy 2
The City shall review projects, particularly those which propose master planned communities, to assure that public facilities are provided to meet the needs of the project and the surrounding area.

Program 2.A
The City shall, where appropriate, regulate the location of public facilities through conditions of approval.

Responsible Agency: Planning Department, Public Works Department, Planning Commission, City Council

Schedule: Ongoing
Implementation Status – Ongoing through conditions of approval.

Open Space Goals, policies and Programs:

GOAL 1

The conservation and management of open space areas to provide recreational opportunities and protect important resources in perpetuity.

Policy 1
Lands preserved through conservation easements, acquired by private or public agencies, or dedicated for open space shall be designated for the appropriate Open Space land use category on the land use map as they are preserved.

Program 1 A
Review development proposals adjacent to designated open space lands and assure that land uses are compatible, and buffers provided when necessary.

Responsible Agency: Planning Department, Public Works Department

Schedule: Ongoing
Implementation Status – Ongoing.

Policy 2
The City shall proactively coordinate with private and public agencies so that lands available for conservation are dedicated appropriately to assure their management in perpetuity.

Program 2.A
The City shall coordinate with land owners and private and public agencies to the greatest extent possible to assure that lands proposed for open space either through donation or purchase are conveyed to the appropriate management agency.

Responsible Agency: Planning Department, City Manager’s Office, County of Riverside, State and Federal Agencies, Land Conservation Agencies

Schedule: Ongoing
Implementation Status – Ongoing.
Policy 3
The City of Banning shall protect the peaks and ridgelines within the City, and encourage coordination with adjacent jurisdictions to protect the peaks and ridgelines within the City's area of influence, to protect the historic visual quality of the hillside areas and natural features of the Pass area.

<table>

# Noise Element (10 programs)

## GOAL 1

A noise environment that complements the community's residential character and its land uses.

## Policy 1

The City shall protect noise sensitive land uses, including residential neighborhoods, schools, hospitals, libraries, churches, resorts and community open space, from potentially significant sources of community noise.

### Program 1.A

The City shall require building setbacks, the installation of wall and window insulation, soundwalls, earthen berms, and/or other mitigation measures in areas exceeding the City's noise limit standards for private development projects as they occur.

**Responsible Agency:** Planning Department  
**Schedule:** Ongoing  
**Implementation Status:** Ongoing through land development review process.

### Program 1.B

The City shall maintain and enforce its Noise Control Ordinances that establish community-wide noise standards and identify measures designed to resolve noise complaints.

**Responsible Agency:** Planning Department, Code Enforcement, Police Department  
**Schedule:** Ongoing  
**Implementation Status:** Ongoing through land development review process.

### Program 1.C

The City shall use the development review process to assure the use of buffers between sensitive receptors and incompatible land uses.

**Responsible Agency:** Planning Department, Planning Commission, City Council  
**Schedule:** Ongoing  
**Implementation Status:** Ongoing through land development review process.

### Program 1.D

The City shall require that commercial compactors, loading zones, and large trash bins be located at a sufficient distance from residential properties to reduce noise impacts to its acceptable standard.

**Responsible Agency:** Planning Department  
**Schedule:** Continuous  
**Implementation Status:** Ongoing through land development review process.

### Program 1.E

The City shall purchase, maintain and operate its own noise monitoring equipment.

**Responsible Agency:** Code Enforcement  
**Schedule:** 2006-2007, Ongoing  
**Implementation Status:** Equipment is older prior to 2006 and needs to be updated.
Policy 2
The relationship between land use designations in the Land Use Element and changes in the circulation pattern of the City, as well as individual developments, shall be monitored and mitigated.

Program 2.A
The City shall develop guidelines and minimal criteria requirements for noise analyses for proposed development projects. Studies shall evaluate project impacts and the effectiveness of proposed mitigation measures.

**Responsible Agency:** Planning Department, Public Works Department

**Schedule:** July 1, 2005; every five years.

**Implementation Status:** Ongoing through land development review process and through the building code standards.

Program 2.B
The City shall periodically review and amend the Land Use Map to assure reasonable land use/noise level compatibility.

**Responsible Agency:** Planning Department

**Schedule:** Annually

**Implementation Status:** Ongoing.

Policy 3
Private sector project proposals shall include measures that assure that noise exposures levels comply with State of California noise insulation standards as defined in Title 25 (California Noise Insulation Standards) and/or Banning Ordinances 1138 and 1234, whichever is more restrictive.

Policy 4
The City shall maintain a General Plan Circulation Map and assure low levels of traffic within neighborhoods by assigning truck routes to major roadways only.

Program 4.A
The City shall review designated primary truck routes and ensure they are clearly marked throughout the community. Except for traffic providing location-specific services and deliveries, construction trucks and delivery trucks shall be limited to designated truck routes, including: Ramsey Street, and those portions of Lincoln Street, Highland Springs Avenue, Hathaway Street, Sunset Avenue, Eighth Street, San Gorgonio Avenue and Hargrave Street so designated.

**Responsible Agency:** Public Works Department, City Engineer

**Schedule:** Annually

**Implementation Status:** Not yet implemented

Program 4.B
The City shall discourage development projects that result in through-traffic in residential neighborhoods.

**Responsible Agency:** Planning Department, Planning Commission, City Council

**Schedule:** Ongoing

**Implementation Status:** Ongoing through land development review process.

Policy 5
The City shall ensure that flight paths and airport improvements adhere to all local, state and federal noise regulations.
**Policy 6**
All development proposals within the noise impact area of the Interstate and the railroad shall mitigate both noise levels and vibration to acceptable levels through the preparation of focused studies and analysis in the development review and environmental review process.

**Policy 7**
The City shall coordinate with adjoining jurisdictions to assure noise-compatible land uses across jurisdictional boundaries.

**Policy 8**
The City shall impose and integrate special design features into proposed development that minimize impacts associated with the operation of air conditioning and heating equipment, on-site traffic, and use of parking, loading and trash storage facilities.

**Policy 9**
The City shall support development that results in grade separated railroad tracks.

<table>

Open Space and Conservation Element (7 programs)

GOAL 1

Open space and conservation lands that are preserved and managed in perpetuity for the protection of environmental resources or hazards, and the provision of enhanced recreational opportunities and scenic qualities in the City.

GOAL 2

A balance between the City's built and open space environment and local and regional protection and preservation of its unique environment.

Policy 1
Identify and assess lands in the City, its sphere-of-influence and planning area, that are suitable for preservation as public or private, passive or active open space.

| Program 1.A |
| The City shall maintain and use Open Space land use designations on the General Plan Land Use Map. |
| **Responsible Agency:** Planning Department, Community Services Department. |
| **Schedule:** 2005-2006 |
| **Implementation Status:** Ongoing, private open space & public parks have been set aside through the Specific Plan process that requires minimum public land set aside. |

| Program 1.B |
| Environmental hazard zones, including earthquake fault lines, floodways and floodplains, steep or unstable slopes, shall be designated as open space on the land use map. |
| **Responsible Agency:** Planning Department |
| **Schedule:** 2005-2006 |
| **Implementation Status:** These have been identified in the General Plan and no development is permitted in these areas of concern. |

| Program 1.C |
| Lands on which cultural resources are identified may be preserved as Open Space |
| **Responsible Agency:** Planning Department |
| **Schedule:** Ongoing |
| **Implementation Status:** The St. Boniface Cemetery has been set aside. This is actively monitored through the CEQA process as part of land development. |

| Program 1.D |
| Inventory the costs of land acquisition, maintenance and other administrative functions, and encourage the transfer of public open space and conservation properties to existing land trusts for local property management. |
| **Responsible Agency:** Planning Department, City Council. |
| **Schedule:** 2005-2006, Update every two years. |
| **Implementation Status:** No progress to date. |
**Policy 2**
The City shall protect natural hillsides above the toe of slope in perpetuity as undeveloped open space, and shall provide specific parameters under which development can occur within the Rural Residential – Hillside and Ranch/Agriculture Residential – Hillside land use designations. For purposes of this General Plan, the toe of slope is defined as the dividing line between rock formations where there is a noticeable break in the angle of slope from steep to shallow.

<table>
<thead>
<tr>
<th>Program 2.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Zoning Ordinance shall be amended to include detailed provisions for the preservation of natural hillsides above the toe of slope. These provisions shall include, but not be limited to, density transfers from hillside areas to developable areas within the same parcel, building prohibitions for lands with grades exceeding 25%, permitted uses and building standards for developable areas in these hillsides, and grading parameters in these hillsides.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, City Engineer, Planning Commission, City Council.</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006</td>

</tr>
<tr>
<td><strong>Implementation Status</strong> – No progress to date.</td>
</tr>
</tbody>
</table>

**Policy 3**
Ridgelines shall be preserved as permanent open space.

**Policy 4**
The City shall preserve all watercourses and washes necessary for regional flood control, ground water recharge areas, and drainage for open space and recreational purposes.

**Policy 5**
The City shall preserve permanent open space edges or greenbelts that define the physical limits of the City and provide physical separation between adjoining neighborhoods.

<table>
<thead>
<tr>
<th>Program 5.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Land Use Map and Zoning Ordinance shall regulate development at the boundaries of the planning area to assure the preservation of a well-defined, functional or visual edge.</td>

</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006</td>
</tr>
<tr>
<td><strong>Implementation Status</strong> – Ongoing as part of land development review process.</td>
</tr>
</tbody>
</table>

**Policy 6**
Where practical, new development shall integrate pipeline, above- and underground utility corridors and other easements (including electric, cable and telephone distribution lines) into a functional open space network.
Policy 7
Drought tolerant landscaping materials and design features shall be incorporated into parks, roadway medians, common area landscaping, public facilities and other appropriate open space lands to retain and preserve the natural environment.
Parks and Recreation Element (26 programs)

**GOAL 1**
A high quality public park system with adequate land and facilities to provide recreational facilities and activities for the City’s residents.

**GOAL 2**
A comprehensive bikeway, trail and walking path system that connects homes to work places, commercial venues and recreational facilities, and which enhances the safety and enjoyment of cyclists, equestrians and pedestrians.

**Policy 1**
Update the Master Parks and Recreation Plan so as to assure adequate parklands and facilities that meet the immediate and future needs of the community, and is complementary to the natural environment.

<table>
<thead>
<tr>

</tbody>
</table>
Program 2.B
City staff shall identify and prioritize park development projects based upon need, land availability, neighborhood suggestions and funding, and shall encourage the planting of trees as in parks and open spaces.

**Responsible Agency:** Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

**Schedule:** Ongoing.

**Implementation Status:** On-going. Park projects are reviewed as part of land development review process.

Program 2.C
Investigate and identify the broad range of sources of financing and operating revenue, including Development Impact Fees, Mello Roos special districts, public/private ventures, state and federal grant opportunities, developer fees and inter-agency joint use agreements to supplement revenues collected for parks and recreation purposes.

**Responsible Agency:** City Manager's Office; Parks and Recreation Division; Community Services Department; Banning and Beaumont Unified School Districts

**Schedule:** Ongoing

**Implementation Status:** Under discussion internally.

Program 2.D
Investigate and identify sources of development financing and revenue, including charitable organizations, state and federal grant opportunities to supplement revenues collected for development of parks and recreation facilities and programs.

**Responsible Agency:** City Manager's Office; Parks and Recreation Division; Community Services Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.

Program 2.E
The City will consider the implementation of a Quimby Ordinance for the purchase of park lands for new developments as they occur.

**Responsible Agency:** Parks and Recreation Division; Community Services Department, City Council

**Schedule:** 2005-2006

**Implementation Status:** Not implemented.

Policy 3
Require developers of new residential projects to provide on-site recreational and/or open space facilities in addition to City-wide park requirements.

Program 3.A
Encourage the planting of trees in parks and open spaces.

**Responsible Agency:** Community Services Department

**Schedule:** Ongoing

**Implementation Status:** Ongoing.

Program 3.B
Recreation facilities within projects will be maintained by the residents within the project either through a homeowners' association, assessment district or community facilities district.
**Policy 4**
Encourage the development of recreational programs and activities that serve all population segments, including children, the elderly and the disabled.

**Program 4.A**
Develop a community education program for the City's parks and recreation facilities which focuses on the sense of community which parks and recreation facilities can foster.

*Responsible Agency:* Parks and Recreation Division; Community Services Department

*Schedule:* 2005-2006, Annually

*Implementation Status:* Ongoing.

**Program 4.B**
Develop advertising and publicity programs for recreational programs and events to encourage participation.

*Responsible Agency:* Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

*Schedule:* Annually

*Implementation Status:* Ongoing.

**Program 4.C**
Develop and distribute educational materials relating to the planting and maintenance of drought tolerant landscaping on private property.

*Responsible Agency:* Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

*Schedule:* 2006-2007

*Implementation Status:* Ongoing and active and is part of the City's Landscape Design Guidelines.

**Policy 5**
The City shall consider alternative methods of providing park and recreational amenities to meet future population demands.

**Program 5.A**
Support the development of private recreational ventures that will serve the general population.

*Responsible Agency:* Planning Department; Community Services Department; Economic Development Department

*Schedule:* Ongoing

*Implementation Status:* Parks Master Plan.

**Program 5.B**
Develop a program by which the City can accept parkland gifts and dedications that would be beneficial to the community.

*Responsible Agency:* City Attorney; Planning Department; City Council

*Schedule:* 2005-2006

*Implementation Status:* To be addressed in Parks Master Plan.
Develop a program that establishes public participation in tree or landscaping planting efforts to commemorate special civic occasions.

**Responsible Agency:** Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

**Schedule:** 2006-2007

**Implementation Status** - Ongoing. Sun Lakes public tree planting.

**Policy 6**
The City shall develop and implement plans for a coordinated and connected bicycle lane network in the community that allows for safe use of bicycles on City streets.

**Program 6.A**
The City shall inventory all streets for potential Class I, Class II and Class III bikeways, and shall program their installation in its Capital Improvement Program.

**Responsible Agency:** Planning Department; Engineering Division; Public Works Department; Planning Commission; City Council

**Schedule:** 2005-2006.

**Implementation Status** - Not completed and it is to be addressed in the Parks Master Plan.

**Program 6.B**
Class I bikeways and sidewalks should be installed on both sides of Wilson Street, Ramsey Street, and Lincoln Street, and other major streets where sufficient right-of-way is available.

**Responsible Agency:** Engineering Division; Public Works Department

**Schedule:** 2005-2006, Ongoing

**Implementation Status** - Not completed and it is to be addressed in the Parks Master Plan.

**Program 6.C**
Class II bikeways and sidewalks should be designated on all existing arterial streets that have sufficient width to safely accommodate bicycle travel lanes.

**Responsible Agency:** Planning Department; Engineering Division; Public Works Department

**Schedule:** 2005-2006.

**Implementation Status** - Not completed and it is to be addressed in the Parks Master Plan.

**Program 6.D**
The City should designate Class III bikeways only where Class I and Class II facilities are not feasible.

**Responsible Agency:** Planning Department; Public Works Department

**Schedule:** Continuous

**Implementation Status** - Not completed and it is to be addressed in the Parks Master Plan.

**Policy 7**
The City should continue to work with the Morongo Band of Mission Indians and neighboring cities and communities to create a regional bicycle and trail network.

**Policy 8**
The City shall provide for a comprehensive, interconnected recreational trails system suitable for bicycles, equestrians and/or pedestrians.
Program 8.A
Evaluate the practicality of utilizing flood control channels for multi-use trails, where flooding and safety issues can be accommodated, and negotiate inter-agency agreements for this purpose.

**Responsible Agency:** Planning Department

**Schedule:** 2005-2006.

**Implementation Status:** Ongoing, requirement.

Program 8.B
Evaluate the practicality of developing a multi-use trails system along the Banning Bench adjacent to and extending into San Bernardino National Forest lands, where environmental and safety issues can be accommodated, and negotiate inter-agency agreements with the U.S. Forest Service for this purpose.

**Responsible Agency:** Planning Department, U.S. Forest Service/San Bernardino National Forest

**Schedule:** 2005-2006.

**Implementation Status:** Included in the soon-to-be adopted Master Plan.

Program 8.C
Establish a multi-purpose trail between Dysart Park and Smith Creek Park, suitable for equestrian, bicycle and pedestrian use.

**Responsible Agency:** Community Services Department; Public Works Department; Parks and Recreation Advisory Committee

**Schedule:** 2005-2006, ongoing as development occurs

**Implementation Status:** Ongoing.

Policy 9
Motorized vehicles shall be prohibited on City trails.

Program 9.A
The City shall develop a non-motorized trail system and associated ordinances and other required implementation programs.

**Responsible Agency:** Public Works Department, Planning Commission, City Council

**Schedule:** 2006-2007

**Implementation Status:** Included in the soon-to-be adopted Parks Master Plan.

Program 9.B
The non-motorized trail system shall be funded, to the greatest extent possible, by new development.

**Responsible Agency:** Public Works Department

**Schedule:** 2006-2007

**Implementation Status:** Ongoing as part of land development review process.

Program 9.C
The routing and facilities required in the non-motorized trail system Plan shall be incorporated into the Development Impact Fee when the Plan is adopted.

**Responsible Agency:** Public Works Department

**Schedule:** 2006-2007

**Implementation Status:** Not yet completed.
Police and Fire Protection Element (5 programs)

GOAL 1
The highest possible quality and level of service for fire and police protection to preserve and protect the health, welfare and property of residents, business owners, visitors and property owners.

Policy 1
The City shall work closely with the Fire and Police departments to assure that adequate facilities are constructed and service is provided as development and growth occur to maintain and enhance levels of service and insurance ratings.

<table>
<thead>
<tr>
<th>Program 1.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>On an annual basis, consult and coordinate long-term planning with the Police and Fire departments regarding the optimal location of future police and fire stations, equipment, paramedic/ambulance service, and to ensure that levels of staffing are adequate.</td>
</tr>
</tbody>
</table>

| Responsible Agency: City Manager, Police Department, Fire Department |
| Schedule: Ongoing |

| Implementation Status - Ongoing. The new police station has been built and occupied. The Fire Department has developed a long-range master plan that outlines the number and placement of fire stations. The master plan was approved by the City Council. The Fire Department uses the master plan to identify fire station requirements when proposed developments are presented. Recent City budgetary concerns have required that the Fire Department consider lowering the number of Stations originally approved in the master plan thereby lowering what it feels is the appropriate level service for Banning residents. Working with Pardee on fire station location within their project to make it more regionalized with Beaumont, Banning and the County for location and cost controls. |

Policy 2
The City shall review all proposals for new or significant remodeling projects for potential impacts concerning public safety.

<table>
<thead>
<tr>
<th>Program 2.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall continue to monitor levels of development in the planning area to assess the need for new fire stations.</td>
</tr>
</tbody>
</table>

<tbody>
<tr>
<td>All development applications shall be routed to the Police and Fire Departments for comment as part of the application review process.</td>
</tr>
</tbody>
</table>

| Responsible Agency: Planning Department, Fire Department, Police Department |
| Schedule: Ongoing |
Policy 3
The City shall strictly enforce fire standards and regulations in the course of reviewing development and building plans and conducting building inspections of large multiple family projects, community buildings, commercial structures and motel structures.

Policy 4
All proposed development projects shall demonstrate the availability of adequate fire flows prior to approval.

Program 4.A
Coordinate with the City of Banning Utility Department – Water Division and the Banning Heights Mutual Water Company to ensure availability of adequate water supplies and pressures for fire flows for all existing and proposed development.

Responsible Agency: Planning Department, Fire Department, City of Banning Utility Department – Water Division, Banning Heights Mutual Water Company, Building Department.

Schedule: Ongoing

Implementation Status - All projects are conditioned to meet appropriate fire flow requirements. The Water Department must verify that the required flow can be met.

Program 4.B
Proposed projects in hilly areas with potential access problems, and/or lack of sufficient water and/or water pressure, may require special on-site fire protection measures. Such measures shall be specified during project review.

Responsible Agency: Planning Department, Fire Department

Schedule: Ongoing

Implementation Status - The City Fire Code requires that any building located more than 10 minutes response time from the closest fire station have an automatic fire sprinkler system installed throughout the building. The fire department will require that developers have in place adequate water systems to support fire protection needs. Effective January 1, 2011, an automatic residential fire sprinkler system shall be installed in all new one-and-two family dwellings in accordance with the 2010 California Residential Code (Title 25, Part 2.5)

Policy 5
Crime prevention design techniques, including the use of “defensible space,” high security hardware, optimal site planning and building orientation, and other design approaches to enhance security shall be incorporated in new and substantially remodeled development. (All development proposals routed to Police Department for comment.)

Policy 6
The City shall continue to support and promote community-based crime prevention programs as an important augmentation to the provision of professional police protection services. (Ongoing through 100 Neighborhoods, KO. Gangs in Neighborhoods, GRATE, BPAL)

Policy 7
The City shall periodically review the level, quality, innovation and cost-effectiveness of police and fire protection services, including contract services. (Five-Year Strategic Plan 2006-2011 has been completed.)
Policy 8
The Police and the Fire Departments shall closely coordinate and cooperate with the City and County emergency preparedness teams and shall assure the most effective emergency response practical. (Ongoing training and coordination with all parties involved.)

Policy 9
The Fire Department shall maintain a 5-minute response time.

Policy 10
The Police Department shall maintain a level of service (LOS) goal of 2.0 sworn officers per 1000 residents. (It is recommended that LOS goal be changed to 1.5.)

Policy 11
The Fire Department Ambulance Services shall maintain a 5-minute response time.

Policy 12
The City shall investigate the requirements for an International Organization for Standardization (ISO) rating specifically for the City. (Commission on Accreditation for Law Enforcement Agencies (CALEA).)

Policy 13
The City shall continue to pursue grant positions for the Police Department. (KO Gangs and GRATE have three positions funded by grant.)

Policy 14
The City shall pursue all funding mechanisms to fund the need for police and fire services generated by new development. (Working to establish CFD’s & Development Impact Fees.)
GOAL 1

The provision of a full range of dependable, cost-effective, and conveniently located public buildings, services and facilities that meet the functional, social and economic needs of the entire community.

Policy 1

The Land Use Element shall consider the long-term availability of sites for future public and quasi-public buildings, infrastructure, and other facilities.

Program 1.A

The City shall review its official Land Use Map and development patterns every five years to assure the availability of adequate sites for future public and quasi-public buildings, infrastructure, and other facilities. The City shall confer and coordinate with utilities and other public and quasi-public agencies regarding their long-term needs.

**Responsible Agency:** Community Development Department, Public Works Department, Banning Heights Mutual Water Company, SCE, SCG, Verizon, Time Warner

**Schedule:** 2005; every five years

**Implementation Status – Ongoing:** Recommendations of city-approved master plans of facilities such as parks, recreation, sewer, and water will be incorporated into future development as part of land development review process.

Policy 2

Continue to identify and evaluate viable, long-term funding mechanisms that provide for the construction, maintenance and operation of existing and future public buildings and facilities, including assuring that new development funds its fair share of these facilities.

Program 2.A

The City shall explore the possibility of establishing a New Construction tax for the purpose of establishing an on-going funding source for adequate provision of public buildings and utilities associated with new development.

**Responsible Agency:** City Council, Finance Department, Public Works Department, Building Department

**Schedule:** 2005

**Implementation Status – Not yet completed.**

Program 2.B

The City shall pursue and encourage joint-use facilities with other local agencies.

**Responsible Agency:** Community Services Department, Banning and Beaumont Unified School Districts

**Schedule:** 2005-2006, Ongoing

**Implementation Status – Joint use with Banning Unified School District.**

Policy 3

Coordinate with public utility providers and other public/quasi-public agencies to assure that utility buildings and facilities are compatible with the surrounding landscape.

Program 3.A

The City shall establish and maintain close working relationships with utility purveyors and other public
and quasi-public agencies serving the City to assure the least intrusive integration of related buildings and facilities into the community.

**Responsible Agency:** Community Development Department, Public Works Department, Banning Heights Mutual Water Company, SCE, SCG, Verizon, Time Warner

**Schedule:** Immediate; Continuous

**Implementation Status:** Ongoing.

**Program 3.B**

All new maintenance and utility facilities (and their signage) shall be integrated into the surrounding environment using landscape treatments, architectural elements, and/or other appropriate design mechanisms. Whether as a regulatory or advisory function, design plans shall be reviewed by the Community Development Department.

**Responsible Agency:** Community Development Department, Public Works Department, Banning Heights Mutual Water Company, SCE, SCG, Verizon, Time Warner

**Schedule:** Immediate; Continuous

**Implementation Status:** Active as it is implemented.

**Policy 4**

All public buildings and facilities shall comply with the same development standards as private development.

**Policy 5**

Encourage the undergrounding of all utility lines and the undergrounding or screening of transformers/facilities.

**Policy 6**

Critical structures and facilities (including the civic center, hospitals, fire stations, police stations, schools and major communications facilities) shall be restricted from geologically and hydrologically hazardous areas.

**Policy 7**

The Zoning Ordinance shall be reviewed to facilitate the location of public buildings and offices in a centralized location near the Civic Center.
# Schools and Libraries Element (7 programs)

## GOAL 1

The provision of quality school and library facilities in the City that is accessible, safe and conveniently located within the community.

**Policy 1**

Assist, cooperate and coordinate with the Banning and Beaumont Unified School Districts and state agencies in identifying, acquiring and developing school sites needed to meet future growth demands. Encourage the selection of potential school sites that are centrally located in areas of existing or future residential development.

<table>

**Policy 3**

Schools and libraries shall be protected from excessive noise and traffic conditions, incompatible land uses, and the threat of on-site disturbance to the greatest extent practicable.

| Program 3.A |
The City shall routinely evaluate and update the Land Use Element to assure that school and library sites are compatible with surrounding land uses, arterial roadways and other significant noise generators.

**Responsible Agency:** Planning Department  
**Schedule:** Ongoing  
**Implementation Status:** On-going.

### Program 3.B
The City shall work closely with the District to improve the safety of students traveling to and from school over the railroad tracks, and shall strive to provide separate, safe pedestrian and bicycle access, particularly in the vicinity of the high school.

**Responsible Agency:** Planning Department, Public Works Department, City Council  
**Schedule:** Ongoing  
**Implementation Status:** Safe routes to school program being implemented. State Safe Route to Schools’ grant application has been submitted to the State for approval.

### Program 3.C
To maximize the safety of students, parents, school staff and the general public, the City shall coordinate with the Banning Unified School District to maintain an adequate staff of school resource officers responsible for monitoring and patrolling school campuses during appropriate school hours.

**Responsible Agency:** Banning Unified School District, Police Department, Beaumont Unified School District  
**Schedule:** Ongoing  
**Implementation Status:** Active and ongoing.

### Policy 4
The City shall cooperate in securing school impact fees from developers, in accordance with state law.

### Policy 5
The City shall pro-actively work with the Banning Unified School District to improve the level and quality of education wherever possible.

### Policy 6
The City shall encourage and support local higher education institutions that enhance general, career and vocational skills, employment opportunities and personal growth.

### Policy 7
The City shall cooperate with Banning Unified School District, the Riverside Office of Education, and Mt. San Jacinto College to facilitate the establishment of a community education committee, which will develop a mission statement and process of committee activities. The committee’s essential goal shall be to enhance the provision of quality education to all students in the City.

### Policy 8
As appropriate, the City shall pursue agreements with the school districts to assist in the purchase, lease or joint use of land and facilities for school and recreational purposes, and to provide the neighboring community with access to recreational facilities and open space during non-school hours.

### Policy 9
The City shall support and facilitate the development of youth programs to provide quality after-school programs and facilities.
Program 9.A
The City shall establish a committee comprised of education professionals, elected and appointed officials, and County and City staff, and shall explore the possibility of establishing after-school programs targeted towards providing educational, recreational and personal development programs for school-aged children.

Responsible Agency: Banning Unified School District, City Council, Riverside County Office of Education, Community Services Department, Beaumont Unified School District

Schedule: Ongoing

Implementation Status - Active and ongoing coordination.

Policy 10
The City will encourage the Library Board to confer and coordinate with Mt. San Jacinto College to explore the provision of library services, and cooperative efforts with the Banning Public Library, in conjunction with the proposed MSJC Education Center.

Policy 11
The City shall coordinate with the Banning Public Library to assure that adequate library space, services and resources are provided to meet the educational and literary needs of the community.

Policy 12
Recognizing the importance of the library system for educational and cultural development within the community, the City shall explore the need for and feasibility of expanded library facilities and resources, including the potential for and appropriateness of accessing on-line resources associated with the Riverside County library system.
**Water Resources Element (11 programs)**

**GOAL 1**

A balance of development which assures the maintenance of the water supply and its continued high quality.

**Policy 1**

New development projects proposing 50 units on property whose General Plan Land Use designation would allow 50 units, and/or 10 acres of commercial/industrial/other development, or more, whether through a tract map, Specific Plan or other planning application, shall be required to fund the provision of its entire water supply, either through SWP, recycled water or other means, as a condition of approval.

**Program 1.A**

In accordance with the 2003 Determination of Maximum Perennial Yield for the City of Banning, the City shall implement an annual ground water audit. This process involves evaluating groundwater level trends, production rates, ground water quality or other aquifer/well/pump considerations from the previous year (the water audit should be performed six months prior to the start of the water accounting year) and using this information to make recommendations for pumping in the following year.

**Responsible Agency:** Public Utilities Department  
**Schedule:** 2005-2006, Continuous  
**Implementation Status:** Active and on-going.

**Program 1.B**

The City shall develop construction plans and cost estimates for the construction of recycled water facilities for both Phase I and II, and make them available to the development community.

**Responsible Agency:** Public Utilities Department  
**Schedule:** 2005-2006  
**Implementation Status:** Undergoing of wastewater treatment plan/upgrade & install recycled water productions.

**Program 1.C**

The City shall coordinate with the San Gorgonio Pass Water Agency and other appropriate agencies to assure that the City's SWP water can be delivered.

**Responsible Agency:** Planning Department, Public Utilities Department  
**Schedule:** 2005-2006, Ongoing  
**Implementation Status:** Active and ongoing.

**Policy 2**

The City shall require the use of drought-tolerant, low water consuming landscaping as a means of reducing water demand for new development.

**Program 2.A**

Continue to implement the City's Water Efficient Landscape Ordinance by requiring the use of native and drought-tolerant planting materials and efficient irrigation systems.

**Responsible Agency:** Public Utilities Department, Planning Department  
**Schedule:** Continuous  
**Implementation Status:** Ordinance adopted and being implemented.
Program 2.B
The City shall coordinate and cooperate with the San Gorgonio Pass Water Agency, Banning Heights Mutual Water Company and the Beaumont-Cherry Valley Water District to expand and strengthen educational/public relations programs regarding the importance of water conservation and water-efficient landscaping.

**Responsible Agency**: Public Works Department, Planning Department, Banning Heights Mutual Water Company, Beaumont-Cherry Valley Water District

**Schedule**: Continuous

**Implementation Status** – Water efficient Landscape Ordinance and water efficient Landscape Guidelines are handed out at Planning Counter.

Policy 3
The City shall require the use of recycled wastewater for new development, or where it is unavailable, the infrastructure for recycled water when it becomes available, as a means of reducing demand for groundwater resources.

Program 3.A
Coordinate with the Banning Heights Mutual Water Company regarding the future expansion of recycled wastewater treatment facilities to serve existing and new development projects in the City.

**Responsible Agency**: Planning Department, Public Works Department, Banning Heights Mutual Water Company

**Schedule**: Continuous

**Implementation Status** – No projects identified – will be available for future coordination; expansion is coordinated and conditioned for appropriate projects.

Program 3.B
Aggressively pursue all sources of funding to allow for the installation of a comprehensive recycled water distribution system throughout the City.

**Responsible Agency**: Public Works Department, City Manager's Office

**Schedule**: Immediate, Continuous

**Implementation Status** – In process of SRF.

Program 3.C
The City shall study the potential of providing incentives to developers and property owners for the installation of on-site recycled water reclamation systems. Recycled water systems include the reuse of water from sources such as sink drains, dishwashers and washing machines for irrigation purposes.

**Responsible Agency**: Public Utilities Department, City Manager's Office

**Schedule**: 2005-2006

**Implementation Status** – Ongoing studies with future development projects.

Policy 4
Require that all new development be connected to the sewage treatment system, or install dry sewers until such time as that connection is possible.

Policy 5
The City shall provide guidelines for the development of on-site storm water retention facilities consistent with local and regional drainage plans and community design standards.
Program 5.A
Enforce regulations and guidelines for the development and maintenance of project-specific on-site retention/detention basins which implement the NPDES program, enhance groundwater recharge, complement regional flood control facilities, and address applicable community design policies.

**Responsible Agency:** Public Utilities Department, Planning Department  
**Schedule:** Continuous  
**Implementation Status:** Ongoing and required as conditions for all projects.

Policy 6
Coordinate with the San Gorgonio Pass Water Agency, Banning Heights Mutual Water Company and the Beaumont-Cherry Valley Water District, the California Regional Water Quality Control Board and other appropriate agencies to share information on potential groundwater contaminating sources.

Program 6.A
Develop and maintain a system to share records and technical information with the San Gorgonio Pass Water Agency, Banning Heights Mutual Water Company and the Beaumont-Cherry Valley Water District, CRWQCB and other appropriate agencies regarding all sites that have the potential to contaminate groundwater resources serving the City.

**Responsible Agency:** Public Works Department, the San Gorgonio Pass Water Agency, Banning Heights Mutual Water Company and the Beaumont-Cherry Valley Water District, California Regional Water Quality Control Board  
**Schedule:** Continuous  
**Implementation Status:** Ongoing and active.

Policy 7
The City shall ensure that no development proceeds that has potential to create groundwater hazards from point and non-point sources, and shall confer with other appropriate agencies, as necessary, to assure adequate review and mitigation.

Policy 8
Encourage water conservation in existing development.

Program 8.A
Establish incentive programs for conversion of existing buildings to water conserving fixtures and landscaping.

**Responsible Agency:** Public Utilities – Water Department  
**Schedule:** 2005-2006  
**Implementation Status:** In progress.
Water and Waste Water and Utilities Element (10 programs)

GOAL 1

A comprehensive range of water, wastewater and utility services and facilities that adequately, cost-effectively and safely meet the immediate and long-term needs of the City.

Policy 1
The City shall coordinate between the City Utility Department-Water Division, Banning Heights Mutual Water Company, Beaumont/Cherry Valley Water Agency, San Gorgonio Pass Water Agency, California Regional Water Quality Control Board and Riverside County Environmental Health to protect and preserve local and regional water resources against overexploitation and contamination.

Program 1.A
Support the efforts of the City Utility Department-Water Division, San Gorgonio Pass Water Agency, Banning Heights Mutual Water Company and Beaumont/Cherry Valley Water Agency to develop alternative resources for groundwater recharge, and to expand and construct facilities for the treatment and distribution of reclaimed and/or recycled water.

Responsible Agency: Utility Department-Water Division, Banning Heights Mutual Water Company, Public Works Department, San Gorgonio Pass Water Agency

Schedule: Ongoing

Implementation Status - Ongoing and active.

Program 1.B
The City, it's Utility Department-Water Division, San Gorgonio Pass Water Agency, and Banning Heights Mutual Water Company shall continue and extend their efforts to increase domestic water conservation by expanding efforts to promote the use of water efficient landscaping in all development, and the installation of efficient water-using technologies in new and substantially remodeled structures.

Schedule: Ongoing

Implementation Status - Ongoing and active.

Program 1.C
The City, it's Utility Department-Water Division and Banning Heights Mutual Water Company shall evaluate and, as appropriate, implement actions and regulations that facilitate residential and business retrofits of landscaping/irrigation and water-using appliances/processes that significantly increase water use efficiencies.

Responsible Agencies: Utility Department-Water Division, Banning Heights Mutual Water Company, Public Works Department

Schedule: 2005-2006, Ongoing

Implementation Status - Ongoing and active.

Program 1.D
The City shall provide water customers with incentives for the conservation of water.

Responsible Agency: Utility Department-Water Division

Schedule: 2005-2006, Ongoing

Implementation Status - Ongoing and active (i.e., 3rd tier program).
Policy 2
Sewer connection shall be required at the time a lot is developed when service is available.

Program 2.A
To the greatest extent practical, the City and its Utility Department-Sewer Division shall require new development to extend and connect to sewer lines rather than permitting the installation of on-lot septic tanks. In the event on-lot septic systems are required, development shall be required to install “dry sewers” and pay connection fee in anticipation of future sewer main extensions.

Responsible Agencies: Utility Department-Sewer Division, Public Works Department, Riverside County Environmental Health Department
Schedule: Ongoing
Implementation Status: Ongoing and active.

Policy 3
In the event a sewer line exists in the right-of-way where a for-sale residential unit is served by a septic system, the septic system shall be properly abandoned prior to a sale and/or close of escrow, and the unit shall be connected to the sewer system.

Program 3.A
The Building and Public Works Departments shall establish procedures for identifying home sales, and shall publicize the requirement for connection of sewers with the mortgage companies and escrow companies of the area.

Responsible Agency: Building Department, Public Works Department
Schedule: 2005-2006, Ongoing
Implementation Status: Ongoing and active.

Policy 4
The City shall make every effort to assure and assist in facilitating the timely and cost-effective extension and expansion of services that support community development and improved quality of life.

Program 4.A
The City shall coordinate its Capital Improvement Program with those of local utility and service providers to assure cost-effective and adequate capacity of services and facilities for future growth and development.

Responsible Agencies: Public Works Department, Utility Department, Banning Heights Mutual Water Company, other utilities and service providers
Schedule: 2005-2006
Implementation Status: Ongoing and active.

Program 4.B
The City shall coordinate with appropriate public and quasi-public agencies and utilities in conducting ongoing assessments of infrastructure capacity and evaluating expansion and improvements needed to carry out responsible growth management.

Responsible Agencies: Public Works Department, Utility Department, Banning Heights Mutual Water Company, other utilities and service providers
Schedule: 2005-2006
Implementation Status: Ongoing and active.
Policy 5
To ensure the timely expansion of facilities in a manner that minimizes environmental impacts and disturbance of existing improvements, the City shall confer and coordinate with service and utility providers in planning, designing and siting of supporting and distribution facilities.

<table>

</tr>
<tr>
<td><strong>Schedule:</strong> 2005, Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status - Ongoing and active.</strong></td>
</tr>
</tbody>
</table>

Policy 7
The City shall continue to confer and coordinate with its solid waste service franchisee to maintain and, if possible, exceed the provision of AB 939 by expanding recycling programs that divert valuable resources from the waste stream and returning these materials to productive use.

Policy 8
The City shall support, and to the greatest extent practical, shall encourage commercial and industrial businesses to reduce and limit the amount of packaging and potential waste associated with product sale and production.

Policy 9
Utility lines on scenic roadways, major streets and in the downtown shall have primary consideration for undergrounding.

Policy 10
Major utility facilities, including power and other transmission towers, cellular communication towers and other viewshed intrusions shall be designed and sited to ensure minimal environmental and viewsheds impacts and environmental hazards.
Policy 11
The City shall encourage the planning, development and installation of state-of-the art telecommunications and other broadband communications systems as essential infrastructure.

Policy 12
The City shall encourage in others and itself the use of alternative fuel vehicles.

Policy 13
The City shall investigate lower cable rates for ungated neighborhoods.

Policy 14
The City shall encourage alternative energy use for individual property owners and consider developing an incentive program.
Wildland Fire Hazard Element (15 programs)

GOAL 1

Protect human life, land, and property from the effects of wildland fire hazards.

Policy 1

The City shall establish and maintain an information database containing maps and other information which describe fire hazard severity zones, fire threat zone, and other wildfire hazards occurring within the City boundaries, sphere-of-influence and planning area.

<table>
<thead>
<tr>
<th>Program 1.A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Consult and coordinate with surrounding communities, the State Board of Forestry and Fire Protection, California Department of Forestry and Fire Protection, Riverside County Fire Department, other applicable state and federal agencies to establish, improve and routinely update the database.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning Department, Banning Fire Department, Beaumont Fire Department, State Board of Forestry and Fire Protection, California Department of Forestry and Fire Protection, Riverside County Fire Department, Morongo Band of Mission Indians.</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006; Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> A new severity zone map has been developed by the California Department of Forestry and Fire Protection (Calfire) and is being reviewed by the City Fire Staff. The revised map for the City, if approved by the City Council, will go into effect July 1, 2008. Revisions to the Map will be ongoing as development occurs but at a minimum of every 5 years.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The City shall make available copies of the Fire Severity Map and discourage development within areas so designated, or require detailed mitigation measures that reduce potential hazards to insignificant levels.</td>
</tr>
<tr>
<td><strong>Schedule:</strong> Immediately; Ongoing</td>
</tr>
<tr>
<td><strong>Implementation Status:</strong> The current map, produced by the State, is currently available to view at the fire department administrative office at 3900 W. Wilson. The City Council approved fire severity map will also be a public document. Over one year ago the City Fire Marshal developed standards for development in high fire hazard areas. That document has been made available to developers as needed. At the December 13, 2007 City Council meeting the Fire Marshal introduced Ordinance 1378 which, if approved, will adopt Chapter 7B of the California Fire Code defining construction standards for building in fire hazard areas. The current handout will be revised to reflect the new code. With the new CFC and residential sprinkler codes this issue has been updated in 2011 along with the Fire Hazard Severity map being available online at <a href="http://frap.cdf.ca.gov/fhsz/localmaps/riverside">http://frap.cdf.ca.gov/fhsz/localmaps/riverside</a></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Program 1.C</th>
</tr>

<tbody>
<tr>
<td>Prepare an informational handout to be distributed to developers, property owners, and other appropriate parties, which describes the need for and design of fire safe developments.</td>
</tr>
<tr>
<td><strong>Responsible Agency:</strong> Planning, City Engineer, Fire Department</td>
</tr>
<tr>
<td><strong>Schedule:</strong> 2005-2006 Ongoing</td>
</tr>
</tbody>
</table>
**Implementation Status:** The Fire Department has developed a 1-page handout briefly describing the requirements. The handout will be revised to match the new building code requirements.

**Program 1.D**
Establish and maintain a program by which all potentially hazardous structures, which pose a threat due to inadequate fire hazard construction are identified, inventoried, and retrofitted with fire retardant materials. Program shall include informational handouts describing appropriate methods of retrofitting and possible sources of funding to facilitate the rehabilitation of such structures.

**Responsible Agency:** Building and Safety Department, City Engineer, Fire Department

**Schedule:** 2005-2006

**Implementation Status:** Nothing done at this time.

**Policy 2**
On going coordination between the Banning Fire Department, Beaumont Fire Department, the Riverside County Fire Department, the California Department of Forestry, the Morongo Band of Mission Indians and the US Forest Service in fire prevention programs.

**Program 2.A**
Cooperate with all neighboring agencies in order to identify opportunities for fuel breaks in very high hazard severity zones and to ensure that fire breaks are provided where necessary and appropriate.

**Responsible Agency:** Fire Marshall, City of Beaumont, County of Riverside, Morongo Band

**Schedule:** 2005-2006, Ongoing

**Implementation Status** — Approximately 1½ years ago, the Fire Marshal met with representatives from Cal Fire/Riverside County Fire and San Bernardino County Fire, and the U.S. Forest Service to discuss fuel modification projects in the wildland areas north of Banning from Yucaipa to the Morongo Reservation. For budget cycle 2004-2006 the City Fire Marshal proposed a 4-year fuel break construction project in Banning Canyon. The Council approved financing for the project. When funding was requested to continue for the final 2 years of the project, it was denied. Fuel break Projects to the northwest of Banning are being done by CalFire but have little effect toward the protection of the watershed in Banning Canyon.

**Program 2.B**
Development proposals shall be transmitted to the Police Department and the City Fire Marshal, and input shall be incorporated into project design or conditions of approval, as appropriate.

**Responsible Agency:** Building and Safety Department, Planning Department, Police Department, Fire Department

**Schedule:** Ongoing

**Implementation Status** — All development proposals are routed to the Fire Department for comments.

**Program 2.C**
The Police and Fire Departments shall closely coordinate and cooperate with the City and County emergency preparedness teams and shall assure the most effective disaster response practical.

**Responsible Agency:** City Manager’s office, Fire Department, Police Department, County of Riverside, PASSCOM

**Schedule:** Immediately; Ongoing
Implementation Status – The Fire Department's Disaster Preparedness Bureau has completed the City's Emergency Operations Plan. The Department has an ongoing training program for City Employees and City residents. Coordination with local disaster preparedness organizations and County OES is ongoing. The Fire Department evaluates all projects to ensure adequate egress in emergency situations. Cities EOP was updated December 2010.

Program 2.D
Contact and establish working relationships and strategies with Banning Heights Mutual Water Company, High Valley Water District, public utilities, and other appropriate agencies to strengthen or relocate utility facilities, and take other appropriate measures to safeguard major utility distribution systems to the greatest extent practical.

**Responsible Agency:** Planning Department, Public Works Department, City Engineer, Public and Quasi-Public Utilities

**Schedule:** 2005-2006; Continuous

**Implementation Status:** Active and ongoing.

Program 2.E
Encourage and cooperate with CalTrans and the railroad to reduce hazardous fuel loads (vegetation) near bridges, roadways, rail lines and state highways, which may be subject to closure during major wildland fire events.

**Responsible Agency:** Public Works Department, City Engineer, CalTrans, railroad

**Schedule:** Continuous

**Implementation Status:** Active and ongoing.

Program 2.F
The public will be educated regarding disaster prevention and emergency responses including evacuation procedures.

**Responsible Agency:** Police and Fire Departments, School Districts, PassCom

**Schedule:** Immediately; Ongoing

**Implementation Status:** Active and ongoing.

**Policy 3**
Continue to identify wildfire hazard areas, and to enforce special standards for construction in wildland fire hazard areas.

Program 3.A
New and substantially remodeled structures or developments shall incorporate wildfire prevention design techniques, such as the use of “defensible space,” fire retardant sidings, optimal site planning and building orientation, landscaping orientation, and other design approaches to reduce wildfire hazards.

**Responsible Agency:** Building and Safety Department, Planning Department, Police Department, Fire Department

**Schedule:** Ongoing

**Implementation Status:** Active and ongoing with land development review.

Program 3.B
Require that adequate emergency vehicle access and evacuation routes be available with approval of any new development.

**Responsible Agency:** Building and Safety Department, Planning Department, Police Department, Fire Department
<table>

ATTACHMENT 4

Exhibit “C” – Detail List of Projects
Completed, Under Construction, Entitlement
Approved or Under Review
BANNING – Despite the difficult local, regional and national economy Banning continues to move forward with new development projects and further community revitalization.

The new Banning Police Station was completed in January 2010.
Downtown, the City made tremendous progress with the completion of the renovation and restoration of the historic Fox Theater which reopened to record crowds in late November 2009. Additionally, the Agency has invested approximately $2.3 million and completed several façade renovation projects on key downtown buildings. The City is also replacing the existing undersized water lines to increase fire flow and to ensure that there is no interruption of service to businesses in the downtown area.
The Superior Court of California is proposing the construction of an approximately 68,000 square foot court house that includes 6 courtrooms, office work areas, and other support services on a 4.86 acre site just east of City Hall on Ramsey Street. The building will include space for court administration, a court clerk, court security operations, a holding area, and facility support. The total project cost is estimated at $63 million. Ground breaking and start of construction is scheduled for the summer of 2011.
In November *The Frost Company* submitted an application in conjunction with the Redevelopment Agency to develop approximately 5 ½ acres across from City Hall along Ramsey Street. The project is proposed as mixed use development that includes approximately 65,000 square feet of office, retail, and restaurant space. Titled the Village at Paseo San Gorgonio the project is intended to compliment the development of the courthouse across the street and includes frontage along Interstate 10.
The San Gorgonio Pass Area Habitat for Humanity, in partnership with the Community Redevelopment Agency, completed building two single-family homes in the community, and has contracted for additional new construction and acquisition and rehabilitation of distressed properties in partnership with the City for FY 2010-2011.
The development entitlement for O'Donnell Business Park was approved by the City Council in July 2010 which will provide over one million square feet of light industrial space and warehousing in the Banning market with the potential to accommodate hundreds of new jobs. Construction drawings are under review for Phase I of the project that includes the development of the largest warehouse building of approximately 787,000 square feet.
The Brinton Reservoir at the northeast corner of Sunset and Wilson Street was completed in May of 2010 providing new water storage capacity of eight million gallons in northwest Banning to supply future development and provide redundancy to the current domestic water system.
The San Gorgonio Campus of Mt. San Jacinto College is under development. The new campus site is located at the southwest corner of Westward Avenue and Sunset Avenue just south of Interstate 10. Phase I of the project included the initial placement of modular buildings to accommodate four classrooms, offices for counseling and enrollment, and restrooms. The first classes began in at the new campus began in January 2011.
The San Gorgonio Memorial Hospital continues with their $108 million improvement project that includes the expansion of their central plant, emergency department, and other remodeling and improvements. Future improvements include the expansion of capacity (additional beds in a 6-story building) and the further development of the hospital campus. Funding for this project was provided through general obligation bonds approved by voters in March 2006. The first phases of the project are complete and they included the construction of the helipad, cooling tower, and underground utilities. The new emergency department that includes the two story intensive care unit is approximately 33% complete.
The construction of an athletic complex and two-story classroom building at Banning High School is approximately 80% complete. The improvements include 23 additional classrooms, baseball fields, outdoor basketball courts, a swimming pool, a field for soccer and softball games, and a stadium with a track and press box. The $29 million project is financed through bond sales.
C D & G Construction is renewing the construction of Tract 32175 a small 10-lot subdivision located on King Street west of Alessandro Road. They intend on completing the missing improvements and placing the lots for sale immediately. At this time they have pulled permits to complete the perimeter decorative block wall.

Pardee Homes is processing an amendment to the Specific Plan that was approved in the mid-90s, including preparing a draft Environmental Impact Report for a construction of a golf-course community that includes two commercial sites totaling 40 acres and a development 5,387 single and multiple-family residential developments, with neighborhood and community parks, trails, a community center site, and two (2) elementary school sites. Entitlement hearings before the decision makers are anticipated in first/second quarter of 2011.
Inland Behavioral and Health Services of San Bernardino received Planning Commission approval in December 2009 to construct a 9,000 square foot medical and dental clinic on East Ramsey Street. It is anticipated that construction drawings will be completed shortly and then building permits will be issued.
Careage, Inc. of Gig Harbor, Washington has completed construction of a 15,200 SF, single story Special Care Facility in “Sun Lakes Village North Specific Plan”. The project includes 17 rooms with 32 occupant beds providing resident care, along with two (2) outdoor private courtyards on the south side of the building. The project is part of the existing Lakes Retirement Community.

(photo not available)

Recently, regarding the subject of business development, it is noted that Lawrence Equipment, a food product machinery manufacturer, purchased the former window manufacturing building on Lincoln Street and is actively relocating its operation to the new site; and, Poison Spyder Customs, an off-road equipment distributor and manufacturer, is relocating to a suite on Lincoln Street. These and other on-going business development projects are encouraging.
